- 6.1 Each child or young person's Individual Risk Assessment will take into account management and mitigation of known and probable behavioural risks, and these will be aligned with their individual behaviour support plan. - 7.1 Each child and young person has an Individual Positive behaviour management support plan (or a plan which includes positive behaviour management and support planning) to meet their assessed needs.

- 7.1.1 This plan is regularly reviewed and updated in consultation with the child or young person and the key partners in their care and education, in accordance with local procedures. (This should be no less than three times each year, and following significant incidents).

- 7.1.2 Individual Positive behaviour management support plans are collaborative, and are intended to enable and encourage each child or young person to take responsibility for their own behaviour, and to develop socially aware behaviours in accordance with their age and understanding.

10 SUPPORTING STAFF

10.1 Regular staff supervision meetings and debriefs following incidents are used to ensure that staff are supported to understand reflect on and manage their own feelings and responses to the behaviour and emotions of children and young people. Staff have a duty to attend and participate in such meetings.

11.2 Where specific concerning behaviours not included and addressed in the EHC become evident, and suggest the need of specialist behaviour support which is beyond the integral provisions of the site, site leaders have a duty to identify the resourcing need to the funding authority and to work with them to address the resourcing need.

12 PHYSICAL INTERVENTION

12.1 Please Refer to Policy ECS 05 Physical Intervention_for full details.

12.5.1 Where restrictive physical intervention has been used these should be recorded within 24 hours of the incident (as with any incident – see OP04 – Incident Reporting). It is expected that copies will be made available to parents/carers and that information is shared following a serious incident. The SLT should also be informed. records should be kept in a safe place and all staff should have access to it. It remains an important legal document and should be treated as such. (Note that the eCompliance Incident Form is the primary incident reporting form for all incidents).

12.5.2 Schools/homes should nominate a member of staff to monitor, analyse and take appropriate action in response to the use of physical intervention. Such analysis should consider equality issues including, age, gender, disability, culture and religion in order to make sure that there is no potential discrimination; the analysis should also have regard to potential child protection issues. Analysis should also consider trends in the relative use of physical intervention across different staff members and across different times of day or settings.
