

POLICY TITLE:	Safeguarding Children
Policy Number:	OP06
Version Number:	V23
Date of Issue:	09/09/2020
Date of Review:	08/09/2021
Author:	Risk & Audit team, Group Safeguarding Committee
Ratified by:	Philip Winterbottom, Group Designated Nurse for Safeguarding
Responsible signatory:	Jane Stone, Group Director of Nursing, Professional Development and Service Improvement, Executive Lead for Safeguarding
Outcome:	<p>This policy:</p> <ul style="list-style-type: none"> • Aims to ensure that children and young people we work with, or who visit Priory group sites for any reason are protected effectively from abuse. • Clarifies mandatory and optional training requirements. • Ensures that all colleagues are made aware of local arrangements as set out on the form provided.

Cross Reference:

SITE CONTACTS *(Complete this section before printing this policy or adding to webpages)***Local Authority Safeguarding Partnership contact details****Key Safeguarding Personnel at****The (Designated) Safeguarding Lead (D)SL is**

Contact Details: Email: Telephone:

The Deputy Safeguarding Lead(s) is/are

Contact Details: Email: Telephone:

The Nominated Regional Safeguarding Lead is

Contact Details: Email: Telephone:

The Site/Service Lead/Manager is

Contact Details: Email: Telephone:

Education & Children's Services: The Operations Director (who is also the Chair of Governors for Schools) is:

Contact Details: Email: Telephone:

In the event of an allegation against the site/service Lead/Manager (D)SL you should contact the Operations Director, Regional Lead and/or the Divisional Safeguarding Lead in line with the site/service's OP Forms 15 and 16. A common sense approach about who to contact and escalate to should be taken when allegations are made against senior colleagues or their families. Risks are to be reduced by awareness of familial relationships that may exist. If in any doubt, the Divisional Safeguarding Lead should be contacted:

- **Health Care:** Natasha Sloman, Director of Quality
- **Adult Care:** Nicky Cooper, Director of Quality
- **Education & Children's Services:** Bonny Anderson, Director of Quality

Note: This overarching policy does **not** replace the need for services to maintain up-to-date 'Local Procedures' (**OP Forms 15** and **16**).

All sites must complete [OP Form: 15](#) and [OP Form: 16](#), making them available for all colleagues as this ensures the site-level procedures align with Local Authority and Safeguarding Board/Partnership procedures.

Education services must also complete [OP Form 15B](#) as an addendum to be in place during the COVID-19 pandemic and make it available for all colleagues during induction and on display at site

SAFEGUARDING CHILDREN

1 INTRODUCTION

- 1.1 There are different approaches across the UK due to different legislation and guidance for the different countries. However, across the UK Safeguarding children is regarded as everyone's responsibility. The Children Act 1989 and Protection of Children (Scotland) Act 2003 state that the welfare of children and young people (hereafter referred to as children) is paramount. This includes their right to be safeguarded against all forms of abuse and neglect, including sexual and criminal exploitation. Colleagues should be alert to indications of possible child abuse and understand the procedures to be taken to raise their concerns.
- 1.1.1 Safeguarding and promoting the welfare of children is defined for the purposes of this guidance as:
- (a) Protecting children from maltreatment;
 - (b) Preventing impairment of children's mental and physical health or development;
 - (c) Ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
 - (d) Taking action to enable all children to have the best outcomes.
- 1.2 There is no single law that defines the age of a child across the UK. The UN Convention on the Rights of the Child, ratified by the UK government in 1991, states that a child 'means every human being below the age of eighteen years unless, under the law applicable to the child, majority is attained earlier'. (The fact that a child has reached the age of 16 or is living independently does not change his or her status or entitlement to services or protection under the Children Act 1989). Authorities in England, Wales, Northern Ireland and Scotland each have their own guidance setting out the duties and responsibilities of organisations to keep children safe. They all agree that a child is anyone who has not yet reached their 18th birthday, apart from the following exceptions:
- (a) Certain legislation includes reference to duties towards children and young people who are 18, 19 and 20 who have been looked after by the local authority after the age of 16 or who have a learning disability e.g. Children Act 2004 Part 1 (9)
 - (b) In Scotland the Protection of Children Act 2003 refers to specific areas where the 'age of majority' can be considered as 17 or 18.
- 1.3 The legal context in which professionals intervene in the lives of children is determined by the Children Act 1989, which was expanded upon by the Children Act 2004. 'Working Together to Safeguard Children' 2018 provides the guidance by which agencies work together to protect children in line with the legislative requirements. The Priory Group recognises that in order for colleagues to fulfil their duties in line with 'Working Together to Safeguard Children 2018' and 'Keeping Children Safe in Education 2020', they will have different training needs which are dependent on their degree of contact with children and/or with adults who are parents or carers, their level of responsibility and independence of decision-making. (See Section 5 - Induction and Training).
- 1.4 All matters relating to the wellbeing of children and their families in England are dealt with by the Department for Education and the Safeguarding Children Partnerships (SCPs). In Scotland local Child Protection Committees have been introduced and in Wales, the Welsh assembly adopted the provisions of the Children Act 2004 in Safeguarding guidance (Welsh Government, 2019), Working together to safeguard people guidance (Welsh Government, 2019) and the Wales Safeguarding Procedures (Wales Safeguarding Procedures Project Board, 2019) which provides a common set of child and adult protection procedures for every safeguarding board in Wales.

2 POLICY STATEMENT

- 2.1 In line with Legislation and the respective Statutory/Government guidance, Priory Group will work in partnership with local statutory agencies and other relevant agencies to protect children

Operational

and provide an effective response to any circumstances giving ground for concern, complaints or expressions of anxiety.

- 2.1.1 The commitment of Priory Group is to effectively protect all children who come into contact with our services from any form of abuse (see Section 6). This commitment also includes protecting the children of mental health service users and children visiting any Priory Group our sites. Priory Group adopts a 'think family' approach which is embedded into safeguarding policies, practice and training.
- 2.1.2 The Department for Education has issued non-statutory interim guidance on [safeguarding in schools, colleges and other providers](#) during the coronavirus outbreak. This guidance supports governing bodies, senior leadership teams and designated safeguarding leads to continue to have appropriate regard to KCSIE and keep their children safe. It suggests where schools and colleges might consider safeguarding policy and process differently when compared to business as usual. Please refer to '**OP Form: 15B** COVID-19 Safeguarding and Child Protection Policy Update'.
- 2.2 Child protection is a part of safeguarding and promoting the welfare of children. It refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer harm. Priory Group aims to proactively safeguard and promote the welfare of children by identifying needs and gaining early help through safeguarding partners so that the need for action to protect children from harm is reduced.
- 2.3 The details from Care Orders and the status of Looked After Children must be available to colleagues involved in their care and there must be a seamless transition as a child passes into adulthood. (Refer to OP32 Looked After Children and Previously Looked After Children).
- 2.4 Statements made by children about allegations of abuse or neglect will always be taken seriously, as will their wishes and feelings. It is important to listen carefully to the child and report any allegations or suspicions of abuse to the Safeguarding Lead (SL) or Designated Safeguarding Lead in Schools and Colleges (DSL) on site immediately, or, in their absence, a senior colleague in line with the site's Local Procedures for safeguarding children (**OP Form: 15** and **OP Form 15B**). Any concerns about a child's welfare must be acted upon immediately.
- 2.5 **All** staff should be aware that safeguarding incidents and/or behaviours can be associated with factors outside the Priory setting and/or can occur between children outside of these environments. **All** staff, but especially the designated safeguarding lead (and deputies) should consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence.
- 2.6 Assessment of the needs of adult service users should always include a proportionate risk assessment of any potential risk to children who are not service users themselves, but who may come in contact with current or former service users whilst in a site/service or on discharge. Where the adult is also a parent, the impact of their illness on their parenting capacity should be assessed in relation to their own children or other caring responsibilities and planned for appropriately. This would normally be undertaken by the Service User's multi-disciplinary team, led by the senior clinician in conjunction with the Local Authority safeguarding team where appropriate.
- 2.7 **Assessment** - When an Education Health and Care Plan (EHCP) is available, or should be available, this must be used as the basis of placement plans. If an EHCP is not available, then the site should conduct their own assessments in consultation with the required stakeholders as detailed in the following paragraph.
- 2.7.1 Local authorities should share the fact a child has a social worker, and the designated safeguarding lead should hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes. This should be considered as a matter of routine. There are clear powers to share this information under

Operational

existing duties on both local authorities and schools and colleges to safeguard and promote the welfare of children. Where children need a social worker, this should inform decisions about safeguarding (for example, responding to unauthorised absence or missing education where there are known safeguarding risks) and about promoting welfare.

- 2.8 On assessment of children, family histories should be taken from the parents or those with parental responsibilities (as well as the young service user) to ensure that all information is as factual as possible to support the development of holistic treatment/placement plans. Assessments should include developmental histories, history of domestic abuse and substance misuse by family members. Where parents do not engage in the assessment process, this should be noted in the Health or Care Record. In the case of Looked After Children, this may be their social worker or nominated guardian. (It must also be taken into consideration that parents who have mental health problems, substance misuse problems or are in abusive domestic relationships are less likely to give the full account and research indicates the risk of abuse could be considered higher).
- 2.8.1 Depending on the age of the young person, their capacity or Gillick competency and the necessity of the examination, verbal consent to physical examinations will be sought and children will always be offered a chaperone if undergoing such an examination. If the offer of a chaperone is refused, the reason for the refusal must be clearly documented in their records. (Refer to OP05.1 Gillick Competency in a Healthcare Setting).
- 2.8.2 Medical examinations will always be conducted by a medical practitioner and a chaperone will be provided when necessary and also if requested.
- 2.9 A multi-disciplinary and multi-agency approach to the identification of allegations, reporting, planning and review should be the normal approach when dealing with incidences where intervention is considered necessary. Priory Group sites will work closely with SCPs/LSCBs/Scotland local CPCs to ensure that site procedures reflect those of the SCPs/LSCBs/Scotland Local CPCs on arrangements for training, reporting and reviewing matters of safeguarding and protecting children. Contacts and details of arrangements should be detailed in the site/service's Local Procedures ([OP Form: 15](#)) and the COVID-19 addendum (**OP form 15B**)

3 RESPONSIBILITIES

- 3.1 Overall responsibility for the group's arrangements to safeguard and promote the welfare of children ultimately lies with the Chief Executive for Priory Group together with the Executive Lead for Safeguarding (Group Director of Nursing, Professional Development and Service Improvement) in conjunction with all Board Members.
- 3.1.1 This responsibility is delegated to the Nominated Individual for each Division (each Divisional Director of Quality acts as the Divisional Safeguarding Lead).
- 3.1.2 Group Director of Nursing, Professional Development and Service Improvement is also the nominated Child Sexual Exploitation Prevention lead for the Group.
- 3.2 Divisional Safeguarding Leads are expected to ensure there is a robust governance structure in their Division that supports site leaders and their Safeguarding Leads. This role includes: Chairing Divisional Safeguarding Committees; having oversight of safeguarding and associated data for the division (including, but not limited to: Incidents, restrictive practice, quality audits and regulatory outcomes); providing expert advice regarding regulatory expectations for safeguarding; and reporting to the Group Safeguarding Committee.
- 3.3 Regional Safeguarding Leads duties include:
- (a) Facilitating and/or organising dedicated safeguarding supervision to the site-level Safeguarding Leads;
 - (b) Offering sound procedural advice and support;
 - (c) Overseeing complex investigations regarding their services, acting as a point of contact for stakeholders; and

Operational

(d) Analysis of the divisional audits of practice and identification of any actions necessary for the region and monitor these to completion.

Regional Safeguarding Leads are also expected to report up to the Divisional Safeguarding Committees in line with divisional governance structures and support the committee with analysis of disincentives to report, sharing of best practice and lessons learnt through regular contact with other Regional Safeguarding Leads.

- 3.4 Site Leaders are accountable for the safeguarding practice in their service, the responsibility for supporting colleagues and tracking concerns through to 'closure' is sometimes delegated to trained Safeguarding Leads however the Site Leader remains accountable and as such, should be involved and maintain effective oversight of the safeguarding concerns within their service.
- 3.5 It is the responsibility of the Site Leader, named at the beginning of this policy, to ensure that adequate safeguarding and child protection practices are in place on their sites. This will include following safer recruitment procedures, ensuring that all colleagues read this policy and undertake regular training to the levels set out in Section 5 below.
- 3.6 There is a clear governance structure within the Priory Group to monitor safeguarding arrangements. Local arrangements will be monitored at site level by the relevant local governance meeting and at corporate level by the respective regional and divisional safeguarding committees.
- 3.7 Site Leaders (Head Teachers, Registered Managers, Hospital Directors) must ensure that all safeguarding concerns are tracked from when they are raised through to closure. In addition to the use of incident records and daily notes being used to track concerns on an individual basis, concerns should be monitored proportionately across the site/service through Clinical Governance or 'Management Meetings' (Education & Children's Services); as a minimum the number of concerns raised and themes should be considered to inform site-level learning. Concerns should be tracked using the electronic incident system (Datix); where sites have previously established the use of Safeguarding Logs (for Healthcare and Adult Care - **OP Form 09A**, and for Education & Children's Services - **OP Form: 09B**) these can be used in addition to Datix. Safeguarding Logs are to be made available to regulators, Regional Leads and members of the Group Safeguarding Committee for review and quality assurance on request.
- 3.8 Colleagues are responsible for maintaining clear and professional boundaries between themselves and the service users. These boundaries define the limits of behaviour that allow colleagues and service users to engage safely in a therapeutic relationship. The boundaries are based on trust, respect and appropriate use of power, with the focus on the needs of the service user. Blurring of these boundaries, and moving the focus of care away from the service user's needs, can lead to confusion and the possibility of the development of abuse. Personal relationships with service users are never acceptable. (Refer to OP41 Professional Relationship Boundaries).
- 3.9 It is the responsibility of all colleagues to read this policy and to complete the Safeguarding training commensurate with their job role as set out in the Safeguarding Training Matrix (OP Form 21B).
- 3.9.1 **Colleagues can report safeguarding concerns directly to the local Safeguarding services, and must do so if they feel it is necessary.** Colleagues must report any genuine concerns, ensuring the SL (DSL in schools or colleges) on site, or a senior colleague is informed as well as the appropriate Local Authority in line with the site/services Local Procedures (**OP Form: 15**).
- 3.9.2 A failure to respond to/raise a safeguarding concern when recognised will be considered as an act of neglect and be raised as a safeguarding concern against the colleague accordingly, a failure to safeguarding a service user will be considered through the appropriate proportionate disciplinary procedures.
- 3.9.3 **NB:** Every school and college must have a Designated Safeguarding Lead who will take lead responsibility for safeguarding and child protection, provide support to colleagues to carry out

their safeguarding duties and liaise closely with other services such as children's social care. The DSL for schools and colleges main areas of responsibility are set out in Appendices 1A and 1B of this policy.

3.10 **Whistleblowing** - It is the responsibility of all colleagues to advise their manager of any concerns they have about the safety and wellbeing of service users. If colleagues do not feel their concerns are being taken seriously or sufficiently responded to within the Priory Group, they should follow the guidelines in OP21 Confidential Reporting (Whistleblowing). Colleagues can also report safeguarding concerns directly to the local Safeguarding board, and must do so if they feel it is necessary.

3.11 In matters of safeguarding, it should never be assumed that someone else will pass on information which may be critical to the safety and wellbeing of the child, the individual who receives a disclosure or notices a concern must report it appropriately and not assume a colleague will for them.

4 PREVENTION

4.1 **Safer Recruitment** - Safer recruitment policies must be followed for all colleagues, including volunteers. (Refer to HR01 Safer Recruitment and Selection). All interview panels must contain one colleague with safer recruitment training.

4.1.1 Reference should be made to the 'Warner Questions' ('Choosing with care', The Warner report, 1992) and [Recruiting Safely: Safer Recruiting Guidance Helping to Keep Children & Young People Safe' \(Children's Workforce Development Council, 2009\)](#) when recruiting colleagues to work within CAMHS units, and [Keeping Children Safe in Education \(2020\)](#) (updated 2020) and [Safer Recruitment Through Better Recruitment \(Care Inspectorate, 2016\)](#) when recruiting for Education sites.

4.2 **Single Central Register** - All education sites will maintain a single central register which includes all details relevant to all colleagues and their position at the site. This register should be checked regularly and in line with Part 3 of Keeping Children Safe in Education (2020)/Keeping Learners Safe - Guidance document 158/2015 (2015) and the Scottish good practice guidance, Safer Recruitment Through Better Recruitment (Care Inspectorate, 2016). Details required for the Proprietor and governing members can be obtained centrally from Priory Education & Children's services HR and Executive Assistant to the COO, centrally. Guidance on how to complete the single central register is published on the company intranet.

4.3 **Disqualification self-disclosure** - Colleagues are required to sign the **HR Form: 10** self-disclosure and **HR Form: 10C** disqualification self-disclosure. Guidance on disqualification can be found in HRA27 Disqualification under the Childcare Act 2006 - Background Information and FAQs.

4.4 **Agency Colleagues** - Agency colleagues' references and Disclosure and Barring Service, Access NI or Disclosure Scotland checks are the responsibility of their employer i.e. the Agency, but must be confirmed in writing to the site prior to any shift being worked. Agency colleagues induction will include an overview of safeguarding procedures specific to the site this includes being provided with a copy of the site's Local Procedures ([OP Form: 15](#), [15B](#) and [16](#)) in addition to completing the appropriate Agency induction Checklist. It is the responsibility of the Site/service Manager to ensure agency colleagues have been cleared by their employer i.e. the agency (and that this is confirmed in writing and recorded on the single central register on Education & Children's Service sites).

4.5 A full police check under the Disclosure and Barring Scheme (or regional equivalent) should be undertaken for all colleagues, including volunteers, working with children BEFORE the colleague starts work. Employers are required to make referrals to the DBS about individuals they believe to pose a risk of harm to vulnerable groups and **this is a legal duty and failure to refer when the criteria are met is a criminal offence**. There is a referral guidance document available from the DBS www.gov.uk/government/publications/dbs-referrals-form-and-

[guidance](#). It is also an offence for employers to employ anyone who is barred under the scheme or to fail to report (Refer to HR0.7 Disclosure (including DBS, Access NI and Disclosure Scotland)).

- 4.6 In Scotland, the Protecting Vulnerable Groups (PVG) Scheme, managed by Disclosure Scotland works by encouraging people who work with vulnerable groups on a regular basis to join. While membership is not compulsory, a barred person is committing an offence if they engage in 'regulated' work. Disclosure Scotland Protection Unit is the equivalent of the DBS. The vetting and barring schemes are linked so that they are all able to identify if and when an individual has been negatively reported in the system of any country in the UK. For further information, visit the [website](#).
- 4.7 **Notifications to Regulatory Bodies** - It is the responsibility of the Site/Service Manager to notify their specific regulatory body in line with their requirements if an employee is suspended or dismissed on safeguarding grounds in consultation with the Central Human resources Department and the Regional Manager or Operations Director.
- 4.8 **Registered Offenders** - Where a known offender is accommodated in a Priory site/service, steps must be taken to ensure that no child can be deemed to be at risk as a result of that person being accommodated in the site/service. Where a child is themselves the offender, supervision procedures and risk assessments should reflect the potential risk to other children, while also ensuring the offender is also protected from further criminalisation. (See Section 10)
- 4.9 **Safeguarding Lead (SL) Roles** - Every Priory site must have a senior colleague as the SL (or Designated Safeguarding Lead (DSL) for schools and colleges) supported by a Regional Safeguarding Lead (A site might have deputies (trained to the same level) that undertake the role when the (D)SL is not available). A register of the (D)SLs for all Priory services is centrally, this is monitored by Divisional Safeguarding Committees on a regular basis. For levels and training see Section 5 and see **Appendix 1** for role description. These roles will be regularly reviewed by the Safeguarding Committees.
- 4.9.1 **NB:** All sites must have a lead for both safeguarding children and for safeguarding adults, regardless of their service user mix. The (D)SLs undertake training on the responsibilities for both child safeguarding and adult safeguarding.
- 4.10 **Partnership Working** - No effective child safeguarding process can work unless those concerned are committed to the concept of partnership working. All agencies involved, private or public bodies, should have the wellbeing of the child as the first priority.
- 4.11 **Information Sharing** - Information shared between agencies, including the Local Authority Children's Services Department and the police must be treated with the strictest confidentiality and in line with the document 'Information Sharing: A guidance for practitioners and Managers' (Department for Education) 2018. Colleagues must have due regard to the relevant data protection principles, which allow them to share (and withhold) personal information, as provided for in the Data Protection Act 2018 and the GDPR. This includes:
- (a) Being confident of the processing conditions which allow them to store and share information for safeguarding purposes, including information which is sensitive and personal, and should be treated as 'special category personal data'.
 - (b) Understanding that 'safeguarding of children and individuals at risk' is a processing condition that allows practitioners to share special category personal data. This includes allowing practitioners to share information without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child in a timely manner but it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk.
- 4.11.1 If sexual exploitation is suspected or disclosed, there is guidance in '[Child Sexual Exploitation: Definition and guide for practitioners](#)' (Department for Education) 2017 on how the investigation requires a proactive approach to explore the nature and patterns of sexual exploitation locally, and to share information with partner agencies about those at risk and potential perpetrators. Linking this work to the response to missing young people and other

public protection issues can help to identify and manage risk at an early stage. It is therefore crucial that those working with children who are, or have been in care, are aware of the local arrangements for information sharing on Child Sexual Exploitation (CSE) and that these are incorporated into local procedures. If Child Sexual Exploitation is suspected the police must be notified. (D)SLs will ensure that safeguarding files are stored and utilised appropriately and will give due consideration to the transference of safeguarding information and files as and when necessary and they must be mindful that information must be shared in order to carry out their duty to safeguard young people and that General Data Protection Regulations (GDPR) do not hinder the protection of young people. A balanced view must be taken around decisions to share information and the (D)SLs must lead on those decisions.

- 4.11.2 In most cases consent should be sought before sharing information, but there are cases when you should not seek consent. For example, if doing so would:
- (a) Place a person (the individual, family member, yourself or a third party) at increased risk of significant harm if a child, or serious harm if an adult;
 - (b) Prejudice the prevention, detection or prosecution of a serious crime;
 - (c) Lead to an unjustified delay in making enquiries about allegations of significant harm to a child or serious harm to an adult.
- 4.11.3 Even where you do not have consent to share confidential information, you may lawfully share it if this can be justified in the public interest. Seeking consent should be the first option. However, where consent cannot be obtained or is refused, or where seeking it is inappropriate or unsafe as explained above, the question of whether there is a sufficient public interest must be judged by the practitioner on the facts of each case. Therefore, where you have a concern about a person, you should not regard refusal of consent as necessarily precluding the sharing of confidential information.
- 4.11.4 A public interest can arise in a wide range of circumstances, for example to protect children from significant harm, protect adults from serious harm, promote the welfare of children or prevent crime and disorder.
- 4.11.5 The legislation in England, Wales and Scotland supports a duty to co-operate to improve the wellbeing of children and young people and for agencies to work together.
- 4.11.6 Taking account of the information sharing guidance, where it is decided that parents should be informed, this must be done in a planned way. The views of the child, any allegations which involve a parent or adult in the family, and the statutory responsibility for the child will influence how this will be done and the advice of the child's Social Worker or the Local Authority safeguarding team should be sought where appropriate prior to sharing.
- 4.11.6 The local authority has a statutory responsibility to make further enquiries if concerns about the wellbeing of any child are expressed to them which reach their threshold for intervention. The appropriate personnel from the Priory site should participate in the enquiries or any further meetings (strategy meetings, conferences etc.) and should provide whatever information is deemed necessary.
- 4.12 **Personal Health and Social Education (PHSE)** - Where the child's education is the responsibility of the Priory site, it is important to make the student aware of behaviour towards them that is not acceptable and how they can help keep themselves safe. Pupils should be just as clear about what is expected of them online as offline. The non-statutory framework for PHSE provides opportunities for children to learn about keeping safe, and who to ask for help if their safety is threatened. As part of developing a healthy safer lifestyle, students should be taught for example:
- (a) To recognise and manage risks in different situations and then decide how to behave responsibly
 - (b) To judge what kind of physical contact is acceptable and unacceptable
 - (c) To recognise when pressure from others (including people they know) threatens their personal safety and wellbeing and develop effective ways of resisting pressure; including when and where to get help
 - (d) To use assertiveness techniques to resist unhelpful pressure

- (e) Sites should also give regard to the compulsory curriculum guidance: 'Relationships and sex education (RSE) and health education 2020, Teaching online safety in schools 2019, and make considerations for appropriate education around relationships.

Annex C: Online Safety (Keeping Children Safe in Education 2020) is hosted separately on the Safeguarding and Protection Hub [HERE](#) for more information.

- 4.12.1 Although, issues such as domestic violence and abuse can be difficult to broach directly, discussions about keeping safe may reinforce the message that any kind of violence and abuse is unacceptable, letting children know that it is okay to talk about their own problems, and signpost sources of help. Raising these issues can lead children to bring up personal problems and concerns. Colleagues delivering lessons on these subjects need to be prepared for that possibility and follow the disclosure process in Section 8 as necessary.
- 4.12.2 The Adoption and Children Act 2002 acknowledges the adverse effects a child experiences when exposed to domestic abuse, by including in its definition of significant harm, the harm children suffer by seeing or hearing the ill treatment of another person particularly in the home.
- 4.7 **Radicalisation** - Priory Group recognises that there is a threat of terrorism and understands that many terrorists are radicalised in the course of their day-to-day contact with others. Priory group works with vulnerable people who are often experiencing a personal crisis, have a low economic status and are socially isolated. This group are particularly prone to being exploited and adopting an extremist agenda. The UK government's Prevent Strategy (2011), which is a key aspect of safeguarding, outlines the commitment to be made by organisations such as Priory Group sector in ensuring that threats of this kind are understood and responded to. (OP08.1 Responding to Suspected Radicalisation).
- 4.8 **Visitors** - All visitors to and from any site must be recorded, and supervised as appropriate. For the respective divisional expectations, refer to Priory policies on visitors and visiting children: H46 Arrangements for Visitors including Visits by Children and AC29 Visitors). Visits by 'persons of celebrity or importance' are discussed in the divisional policies, these refer to visitors and not service users who may be a celebrity or 'of importance'.

5 INDUCTION AND TRAINING

- 5.1 As part of their Induction programme new colleagues should be asked to read the following:
- (a) OP06 Safeguarding Children
 - (b) OP41 Professional Relationship Boundaries
 - (c) Priory Group Employee Handbook
 - (d) A copy of the locally completed [OP Form: 15](#) (and [OP Form: 16](#)).
- 5.1.1 Additionally, on Education & Children's Service sites, new colleagues should be given copies of the above policies, together with:
- (a) A copy of Keeping Children Safe in Education (including all annexes) along with Part 1 (On Welsh sites a copy of Keeping Learners Safe - Guidance document 158/2015 (2015))
 - (b) A copy of ECS04 Positive Behaviour Management
 - (c) A copy of OP Form: 15B
 - (d) Details of the safeguarding response to children who go missing from education.
- 5.1 It is the responsibility of the site/service manager to ensure that all colleagues comply with the induction and training plan, which is centrally managed and monitored by People Development in Central People Team and to regularly view the compliance levels via Priory Academy reports. The e-Learning module will be completed by all colleagues within two weeks of appointment to the job role with regular updates.
- 5.1.1 Further face to face training for all colleagues will be carried out by the Safeguarding Lead, dedicated internal trainers or the agreed external provider, based on assessment of risk for the particular site. Refer to **OP Form: 21B** Safeguarding Training Matrix - All Divisions and **OP Form: 21C** 'Safeguarding for Colleagues' Training - Information for Safeguarding Leads, Managers and SLAs.

Operational

- 5.2 All employees working on Priory sites will undertake the eLearning training module on Safeguarding Children to enable them to recognise early signs of abuse and understand how to communicate concerns to Safeguarding Leads and share vital information between agencies. The eLearning module will be completed by all colleagues within the first two weeks of appointment to the job role, followed by regular refreshers.
- 5.3 The Site/service Manager has the responsibility to identify further suitable learning through their LSPs/LSCB/Scotland local CPC, appropriate to the level of contact with children or parents/carers and the responsibilities of the colleague in regard to children. All courses attended must be recorded on the Priory Academy by the Site Learning Administrator or Internal trainer with access to the 'Trainers Hub'. Such training is to be considered as supplementary to the Priory safeguarding training and not a replacement/alternative to internal training.
- 5.4 All colleagues will receive induction training in line with HR04.9 Induction, and in addition Education site colleagues will also be provided with Part 1 of Keeping Children Safe in Education (or on Welsh sites Keeping Learners Safe - Guidance document 158/2015 (2015) as part of their induction.
- 5.5 (D)SLs will attend centrally arranged combined adult and children & young people learning that is provided by an external training provider (two days (D)SL Face to Face, and one day (D)SL Face to Face Refresher). To ensure consistency of standards, this learning will be delivered across all Divisions. Successful completion of these courses permits the trainer to deliver face to face training at their site providing they meet the competencies set out in OP Form: 21C, in addition to LSP/LSCB/ Scotland Local CPC learning offered locally.
- 5.5.1 Access to appropriate and approved learning must be authorised by either booking onto centrally organised learning or completing a learning request via the Priory Academy and all completed learning must be recorded on the Priory Academy by the Site Learning Administrator or Internal trainer with access to the 'Trainers Hub'.
- 5.6 The Site or Service Manager should ensure that the training materials and guidelines provided by LSP/LSCB/ Scotland Local CPC are available to all employees.
- 5.7 Safeguarding Supervision will be offered at regular intervals to the (D)SL for safeguarding by the Regional Safeguarding Lead or external provider if agreed by the Divisional Safeguarding Committee. Supervision is vital in reflection and learning and can be delivered to other colleague groups as appropriate. Colleagues delivering supervision will receive the appropriate training (Refer to OP28 Supervision).
- 5.8 Depending on the level of contact with children, supervision will be delivered on a one to one basis or in a supervision group. Supervision is 'an accountable process which supports, assures and develops the knowledge skills and values of an individual, group or team'. The purpose is to improve the quality of their work to achieve agreed outcomes. (Providing Effective Supervision, Skills for Care and CWDC 2007, page 5)

6 DEFINITIONS AND RECOGNITION OF CHILD ABUSE

- 6.1 Whilst the statutory responsibility for deciding whether or not a child has been abused lies with personnel both in and outside Priory Group, colleagues should be aware of what is meant by child abuse. Abuse is a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others (e.g. via the Internet). They may be abused by an adult or adults, or another child or children. There are basically four types of abuse referred to in the Government's own guidelines, these are:
- (a) Neglect
 - (b) Physical Abuse
 - (c) Sexual Abuse

(d) Emotional Abuse.

- 6.1.1 It must be noted that abuse is not just a crime perpetrated by adults. Children can pose a threat either physical or sexual to other children by peer on peer abuse. Even when sexualised behaviour, or sexual violence/harassment is identified and a child is on a treatment programme, they still have to be educated and managed within their setting and the incident to be responded to in line with Part 5 of 'Keeping Children Safe in Education' and 'Sexual Violence and sexual harassment between children in schools and colleges', May 2018. Risk assessments must be in place for all children and where a risk of peer on peer abuse is identified. This should be managed through thorough risk assessments and appropriate communication and training for all colleagues working with the children concerned. Allegations of peer on peer abuse must be dealt with by the usual safeguarding procedures. Looked after children and previously looked after children are known to be particularly vulnerable to abuse and colleagues should read policy OP32 Looked After Children and Previously Looked After Children.
- 6.2 **Neglect** - The persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance misuse. Once the child is born, neglect may involve a parent or carer failing to:
- (a) Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
 - (b) Protect a child from physical and emotional harm or danger
 - (c) Ensure adequate supervision (including the use of inadequate care-givers), or
 - (d) Ensure access to appropriate medical care or treatment.
- 6.2.1 It may also include neglect of, or unresponsiveness to, a child's basic needs.
- 6.3 **Physical Abuse** - A form of abuse which may involve hitting, shaking, throwing, poisoning, burning, scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.
- 6.3.1 This type of abuse also includes Female Genital Mutilation (FGM), a complex subject which includes emotional, racial, ethnic and cultural issues and 'Breast Ironing' (damaging developing breast tissue in an attempt to stop growth). All professionals working in 'regulated professions' (healthcare workers, teachers, and social care workers), have a statutory duty to notify the Police if they discover that an act of FGM appears to have been carried out on a girl who is under the age of 18 years (or if they suspect that a child may be at risk).
- 6.4 **Sexual Abuse** - Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing or touching of outside clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the Internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.
- 6.4.1 Both Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE) are forms of abuse and both occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into sexual or criminal activity. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources. In some cases, the abuse will be in exchange for something the victim needs or wants and/or will be to the financial benefit or other advantage (such as increased status) of the perpetrator or facilitator. The abuse can be perpetrated by individuals or groups, males or females, and children or adults. The abuse can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse. It can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied

by violence or threats of violence. Victims can be exploited even when activity appears consensual and it should be noted exploitation as well as being physical can be facilitated and/or take place online.

- 6.5 **Emotional Abuse** - The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless and unloved, inadequate, or valued only insofar as to meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber-bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.
- 6.5.1 All staff should also be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Staff however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.
- 6.5.2 Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences (ACEs), this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences, can impact on their mental health, behaviour and education. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following their child protection policy and speaking to the designated safeguarding lead or a deputy.
- 6.5.3 **N.B** Children from all cultures are subject to abuse and neglect, so practitioners need to make sensitive and informed judgements about a child's needs, and parents' capacity to respond to their child's needs. It is important that professionals are sensitive to differing family lifestyles and to child-rearing patterns that may vary across different racial, ethnic and cultural groups. At the same time they must be clear that child abuse cannot be condoned for cultural or religious reasons.
- 6.5.4 Links to additional guidance and information are hosted on the Safeguarding and Protection Hub [HERE](#) (these align with those provided in Keeping Children Safe in Education).

7 INTERNAL REPORTING

- 7.1 In addition to the procedures actions set out in Section 8.2; any suspicions, allegations or disclosures of abuse or neglect must be reported internally immediately. Colleagues who suspect any form of abuse or safeguarding issue must discuss their concerns with the (D)SL, or in their absence discuss with a senior colleague in line with the site's Local Procedures ([OP Form: 15](#)), immediately or with a maximum of 24 hours. All safeguarding incidents and allegations of abuse will be reported on the Priory Incident Reporting System. A note will be made of whether the incident is disclosure of a non-recent (historical) event or whether it is a current issue that has happened whilst the child is the responsibility of Priory group colleagues. An appropriate note will be made in the service users records.
- 7.1.1 **NB:** Non-recent abuse is defined as an allegation of neglect, physical, sexual or emotional abuse made by or on behalf of someone who is now 18 years or over, relating to an incident which took place when the alleged victim was under 18 years old.
- 7.1.2 The disclosure of a non-recent event is in itself an incident which needs reporting, so that a proportionate notification and investigation can take place to establish the facts and to

ascertain whether it is no longer continuing or current. There would be a risk in not reporting such incidents, since assumptions might be made, and transparency may be compromised.

- 7.2 If an incident has been discussed with the local Children's Services Department (i.e. the local authority Designated Officer or in Wales, the Principal Officer Safeguarding Children as recorded on [OP Form: 15](#)) a record must be kept of their response e.g. whether a referral has initiated further enquiries or signposted to another service. The advice of the local Children's Services Department will be acted upon.
- 7.3 A register of all safeguarding incidents will be kept centrally via the Incident Reporting System (Datix). A local register (safeguarding log) should be maintained, this can be created using Datix, or sites can use **OP Form: 09A** for Healthcare and Adult Care services, and **OP Form: 09B** for Education & Children's Services which are available for this purpose and to track progress of a referral. In Education & Children's Services a chronology tracking safeguarding concerns is attached to each referral (**ECS Form: 01**).
- N.B** In Healthcare, **OP Form: 09A** is to be saved on the central drive in the secure [Safeguarding folder](#). In Adult Care and Education & Children's Services **OP Form: 09A** and **OP Form: 09B** respectively should be maintained at site, kept up to date by the site leader/(D)SL and reviewed at monthly Management/Clinical Governance meetings.
- 7.4 Safeguarding incidents must be escalated through the management and safeguarding reporting structure with serious incident notifications completed in accordance with OP04 Incident Management, Reporting and Investigation.
- 7.5 If an incident is serious enough to warrant a Child Safeguarding Practice Review (SPR), previously known as a 'Serious Case Review' or regional equivalent, this is usually communicated directly to the CEO of Priory Group by the Chair of the local Safeguarding Board/Partnership. The CEO will delegate the responsibility for managing the response to the Executive Safeguarding Lead who will send an acknowledgement letter to the Chair of the local Safeguarding board/Partnership without further delay. The Executive Safeguarding Lead and the relevant Divisional Director of Quality will conduct an impact assessment and reach an agreement on the appointment of authors for the chronology and the Individual Management Review (IMR) to ensure that the full response is sent to the Safeguarding Board/Partnership within their specified timescales.
- 7.6. For identification and appointment of senior colleagues to deal with the response and actions, and the process involved refer to the Flowchart at Appendix 3.

8 DISCLOSURE OR DISCOVERY OF ABUSE OR ALLEGATIONS OF ABUSE

- 8.1 Where there is a reasonable suspicion that a criminal offence may have occurred, it is the responsibility of the Police to investigate and make a decision about any subsequent action. The Police should always be consulted about criminal matters. If possible preserve the crime scene to make sure the evidence is not contaminated, the Police will provide advice on how to preserve the scene in such instances.
- 8.2 In the event of, or knowledge of abuse of children at the unit by anyone, including another service user, employees should use the following procedures:
- 8.2.1 **Step by Step Guide for responding to disclosures of abuse:**
- Listen carefully to what the person has to say, but do not ask leading questions about the alleged abuse
 - Ensure that everyone is safe and that the emergency services have been called if needed
 - Advise the person of the procedures which will follow
 - If you want to take notes, tell the person first, and keep your original notes (even if they are subsequently 'written up' in the person's notes) to give to the (D)SL for safekeeping as they will be required if a case goes to court
 - Record the following information as soon as possible afterwards in black ink (if handwritten), signed and dated by the person alleging the abuse where possible:

Operational

- i. All details of the alleged abuse, including location
 - ii. Times/dates of conversations and telephone calls
 - iii. Names of colleagues present at the time
 - iv. Record in detail the circumstances, including the nature and extent of any injuries and any action taken including any immediate medical assistance required.
 - v. Any other relevant information
 - (f) All Priory colleagues have a duty to refer the case to the local Safeguarding Service using the details identified on the site/service's OP Form 15 and/or seek guidance on what to do next from the (D)SL or Local Safeguarding Service; a multi-disciplinary discussion to agree the next steps should be held, including the service user's views (where possible) and documents in the service user's notes. This must be done as soon as practicable or within 24 hours maximum.
 - (g) The designated safeguarding lead and any deputies should liaise with the three safeguarding partners and work with other agencies in line with [Working Together to Safeguard Children](#).
- 8.2.2 If you are unsure if a concern needs reporting, share any allegations or suspicions of abuse with the (D)SL, or in their absence discuss with a senior colleague in line with the site's Local Procedures (OP Forms 15 and 16), they will offer advice about next steps or liaise with the local Children's Services Department (i.e. the Local Authority Designated Officer or in Wales, the Principal Officer Safeguarding Children) to seek advice and to provide clarity if you should make a referral as either a child in need or a child in need of protection.
- 8.2.3 Remember, speed is essential as delays in reporting abuse can have serious consequences for an abused child.
- 8.3 The (D)SL (or in his/her absence, the site/service manager) is responsible for supporting colleagues with referring safeguarding concerns in line with Local Procedures (OP Forms 15 and 16), they will also ensure that the following procedures are carried out where abuse is witnessed, suspected or alleged:
- (a) Ensure that everyone is safe and that the emergency services have been called if needed. [NPCC- When to call the police](#) should help (D)SLs understand when they should consider calling the police and what to expect when they do.
 - (b) If appropriate, inform and reassure the service user, their GP and family that the situation is being dealt with.
 - (c) Keep service user and safeguarding records up to date, to evidence outcomes or further work required.
 - (d) If the person who discovers the abuse has been unable to, refer the case to the local Safeguarding Service and/or seek guidance on what to do next, this alert must be done as soon as practicable or within 24 hours maximum.
 - (e) To ensure that evidence is not contaminated in case the Police wish to lead, wait until the local Safeguarding Service has given consent before commencing any enquiry.
- 8.4 The (D)SL will be the point of contact for all matters concerning a particular case and they will liaise with the local Children's Services Department and co-ordinate any actions that they prescribe or recommend.
- 8.5 Colleagues may be required to contribute to an initial case conference set up by the Children's Services Department either by providing a report or by attendance. The (D)SL will assist colleagues in this process and provide the necessary guidance to support them.
- 8.6 Non-recent (historical) abuse will always be discussed with the local Children's Services Department as the perpetrator could still be in a position to abuse children. The child or young person who disclosed this may require support. Keeping Children Safe in Education 2020 also makes it clear that this should also be reported to the Police.
- 8.7 The (D)SL will review incident reports to ensure that concerns are fully and accurately recorded. These, along with other reports or details regarding any allegation or incident of abuse, will be kept securely and confidentially by the (D)SL.

- 8.8 The Site/service Manager is responsible for undertaking all such duties described above in the absence of the (D)SL.
- 8.9 **Allegations Against Colleagues (including Agency/Supply staff and Volunteers) -**
This process should be followed in situations when it is alleged a colleague has:
(a) Behaved in a way that has harmed a child, or may have harmed a child
(b) Possibly committed a criminal offence against or related to a child, or
(c) Behaved towards a child or children in a way that indicates he or she would pose a risk of harm if they work regularly or closely with children.
- 8.9.1 Any allegation should be reported immediately to the Site/service Manager. The only exception to this is if the allegation is about the Site/service Manager, in which case the allegation should be reported to the Regional Operations Director (Regional Safeguarding Lead) and Divisional Safeguarding Lead in line with the site/service's Local Procedures (**OP Form 15**).
- 8.9.2 The site/service manager (in conjunction with the Operations Director (Regional Safeguarding Lead), Divisional Safeguarding Lead and the local Safeguarding Service) should decide whether it is appropriate to move to a non-client facing role or suspend colleagues in order to keep service users safe, pending formal disciplinary procedures. The manager carrying out the suspension should also advise the regulatory body or relevant professional body if a suspension is made.
- 8.9.3 On being advised of an allegation that meets the criteria in 8.9, the Site/service Manager (or divisional Managing Director or COO as appropriate) should contact the Designated Officer for the local authority (LADO), who will advise on whether:
(a) The matter should be referred to a strategy discussion as a matter that may need to be dealt with under safeguarding children or Police procedures
OR
(b) It is a matter to be dealt with through disciplinary procedures or by an appropriate management response (such as issuing management guidance to the colleague concerned).
- 8.9.4 If a colleague is subject to an allegation of abuse against a service user or vulnerable individual, suspension pending investigation should be the first choice. Where a colleague is not suspended and is moved to another area, this should be an administrative role and not involve contact with service users or their families. All decisions should be clearly documented with advice sought from the Local Authority Safeguarding Team/LADO, HR and Safeguarding Leads as appropriate to the level of allegation.
- (**NB:** Priority disciplinary procedures may be undertaken, even if the local safeguarding or police teams decide not to take further action).
- 8.9.4 This initial discussion will determine the approach to be taken to informing the parent or carer of the child or children concerned. The (D)SL will be the point of contact for all matters concerning a particular case and he/she will liaise with the local Safeguarding team and co-ordinate any actions that they prescribe or recommend.
- 8.9.5 **An early recommendation from either the Designated Officer for the local authority (LADO) or from the strategy discussion should determine whether and when the colleague who is the subject of the allegation should be informed of the allegation and whether they should be moved to other work or suspended whilst the allegation is dealt with.**

9 REFERRALS TO THE LOCAL CHILDREN'S SERVICES DEPARTMENT

- 9.1 Priority sites will use **OP Form: 17** to make referrals OR the documentation provided by or agreed with the local safeguarding teams to make referrals. However, it must be made clear to colleagues which form is to be used on their particular site (see 9.2). The locally preferred method of reporting a referral may be on-line or via a telephone abuse line. Any referral that

is made to the Children's Services Department must also be made to the relevant regulatory body (e.g. CQC, RQIA, CI, HIS, CIW, HIW, Ofsted).

- 9.2 The Site/service Manager should ensure that all details of local arrangements are noted on [OP Form: 15](#), copies of which should be made available to all colleagues.
- 9.3 Follow-up and escalation of concerns should be done through the (D)SL at site who will co-ordinate and monitor referrals through the local authority safeguarding partners available to them. Appropriate feedback should be provided when necessary and where appropriate to the child, young person, and colleagues involved in making a disclosure so that they are reassured and informed of the processes involved and reduce any unnecessary anxiety. Colleagues who make a referral should always follow up their concerns if they are not satisfied with the response; This includes the (D)SL who should follow up with their local authority partners, especially if re-referrals are necessary or an escalation of concerns.

10 VISITORS

- 10.1 **Children visiting Sites/Services** - Any child, who visits a unit where a registered offender (or a service user with past history/potential for offending, though not currently on the register, is accommodated) should be carefully monitored to ensure that the child is not placed at risk. A risk assessment should be carried out prior to any visit.
- 10.1.1 A visiting child should not be allowed to have contact with an individual who is a risk to children, who is accommodated in a Priory unit, unless in a supervised setting. Who should be allowed to visit, supervision arrangements, location of access etc. should be clearly documented in the individual's Care Plan and clearly discussed **before** any visit by a child takes place.
- 10.1.2 The care plan for such a service user should reflect the potential for him/her to come into contact with children who are not actually visiting him/her, but visiting someone else. The onus is on colleagues to ensure that they are aware of the whereabouts of the service user who poses a risk to children whenever there are visiting children on the unit.
- 10.2 **Visits to Sites/Services by VIPs or Celebrities** - There may be occasions when celebrities or VIPs visit sites or services for various reasons. The following safeguarding arrangements for sites with children must be in place in line with recommendations from the Lampard Report (2015).
- (a) Visits are to be agreed and arranged in advance, with the purpose for the visit clearly understood by all involved parties
 - (b) Contact with service users will be agreed with the service users and their representatives in advance
 - (c) The VIP or celebrity will be accompanied by a suitably senior colleague at all times during their visit
 - (d) Confidential information will not be disclosed to the VIP or celebrity
 - (e) Informal follow-up arrangements will not be made with the VIP or celebrity.

11 PUPILS/STUDENTS IN WORKPLACE PLACEMENTS

- 11.1 There are occasions when children are placed in settings outside of their normal residential setting. This might be as work experience, or under the increasing flexibility agenda or alternative provision arrangements.
- 11.2 Priory Colleagues organising placements need to ensure that local procedures are in place to protect children from harm, focusing greatest protection on settings in which children may be most at risk, for example when children are placed for long periods in one to one situations with an adult. Employers and training organisations need to be made aware of safeguarding issues and asked to co-operate in putting appropriate safeguards in place. The safety of the student remains the responsibility of the site making the placement and therefore Priory colleagues will need to continue to undertake regular risk assessments and be aware of the need for contextual safeguarding, where wider environmental factors are present in a child's life that are a threat to their safety and/or welfare.

Operational

- 11.3 Additional safeguards will be necessary for placements that are in the same workplace when one or more of the following conditions apply. The placement is:
- (a) For more than one day per week
 - (b) For longer than one term in any academic year
 - (c) Aimed at children who may be vulnerable, e.g. those who have special needs, or are young (aged under 16)
 - (d) One where the workplace supervisor or a colleague will have substantial unsupervised access to the child, because of the nature of the business (i.e. micro business, sole trader or journeyman)
or
 - (e) Has a residential component.
- 11.4 If any of the above conditions apply, the following safeguards should be in place:
- (a) A workplace/placement risk assessment should be completed prior to the young person attending the site
 - (b) Training organisations or employers taking responsibility for a child or children on a long term placement should be asked to make a commitment to safeguarding their welfare by endorsing an agreed policy or statement of principles
 - (c) Any person whose normal duties will include regularly caring for, training, looking after or supervising a child in the workplace should be vetted and subject to checks by the DBS, Access NI or Disclosure Scotland, to ensure she/he is not disqualified from working with children or otherwise unsuitable to be responsible for them
 - (d) **(N.B.** this should not include people who will have contact with the child simply because she/he will be in the same location, or as part of their work. It is intended to apply to people who are specifically designated to have responsibility for looking after, supervising or directly training a child or children throughout the placement. Checks should normally be arranged by the organisation arranging the placement, through the LA, School or FE institution, and the person should be regarded as a volunteer for the purpose of the check. The results of these checks will be recorded on the Group's Single Central Register)
 - (e) That person should also be given basic child safeguarding training by the placing institution to be aware of their responsibilities in accordance with 'Working Together to Safeguard Children 2018'. They should be given details of a person to contact at the institution in the event that there are any concerns about a child for whom they are responsible
 - (f) The children who are placed in these settings should also be given clear advice about who to contact if they are worried or uncomfortable about their surroundings, or if they suffer abuse. They should have a continuing point of regular appropriate contact within the school or FE institution and be given opportunities to raise any concerns they may have
 - (g) School/FE institution/LA policies and procedures should define what actions need to be taken by whom and when if any child safeguarding issues are raised prior, during or after the placement
 - (h) In some cases it is also important to ensure that the child/student concerned is suitable for the placement (for example, when placing children in environments involving them working with younger children) and in some circumstances DBS, Access NI or Disclosure Scotland checks may be required. **NB.** DBS, Access NI or Disclosure Scotland checks would not normally be appropriate for students taking Applied GCSE in Health and Social Care.

12 PHYSICAL INTERVENTIONS

- 12.1 Priory policies, appropriate to each division, on the use of physical interventions must be followed and colleagues trained appropriately. ['Guidance in Positive and Proactive Care: Reducing the need for restrictive interventions \(DH 2014\)'](#) should be followed.
- 12.2 Unlawful use of force (force that is neither necessary nor proportionate) is considered physical abuse. Incident data on physical interventions is monitored at site level and centrally to identify trends and themes.

- 12.3 The use of restraint is inappropriate in many settings. Where it has been used, a full record of the incident must be made, carers/parents must be made aware and if serious the appropriate authorities informed (Local Authority/Local Safeguarding Children's Partnership/Board). In exceptional cases the appropriate regulatory body should also be advised (Ofsted, CQC, RQIA, CI, HIS, CIW, HIW) by the Site/service manager, in consultation with the Operations Director. The overall aim of each colleague is to reduce the need for reasonable force and particularly for young people with Special Educational Needs.

13 AUDIT AND GOVERNANCE

- 13.1 An audit of Safeguarding processes will be carried out on all sites (with a maximum interval of 12 months). Divisional audit tools specifically designed to suit the requirements of the Division will be used. The results of the Audit will be discussed at site level local governance meetings, and brought to the Divisional and Group Safeguarding Committees. Local or Divisional action plans will be developed as required.

APPENDIX 1A**ROLE DESCRIPTION FOR SAFEGUARDING LEADS****1 Safeguarding Lead**

A list of [Safeguarding Leads](#) for each Division is published on the Intranet.

The Site Leader (Registered Manager, Hospital Director, Head Teacher) remains accountable for the safeguarding practice at site. The role of the Safeguarding Lead on sites or clusters of sites involves taking on the responsibility for several areas or safeguarding, including, as a minimum, the following:

- (a) Assist/advise other colleagues on safeguarding issues
- (b) Assuming responsibility as the named lead and point of contact for stakeholders regarding safeguarding concerns
- (c) Undertake training and updates to the level specified
- (d) To understand and advise other colleagues on referral processes
- (e) Report to the local clinical governance or management meeting each month
- (f) Receive papers and documents from other agencies and to comment on behalf of the site
- (g) Provide the link from the site to the local Safeguarding Services
- (h) Co-operate fully with all safeguarding enquiries which may include attending strategy meetings and case conferences
- (i) Ensure that clear and accurate records of safeguarding concerns are kept
- (j) To be aware of what situations require referral to the local Safeguarding team
- (k) Input into the development of local safeguarding procedures which effectively link with and reflect those of the Local Authority/Health and Social Care Trust
- (l) Communicate changes to procedures/documentation to colleagues
- (m) To share best practice and lessons learnt through regular contact (at least annually) with other safeguarding leads at the quarterly regional safeguarding meetings
- (n) If approved, to deliver appropriate face to face safeguarding training to other colleagues.
- (o) To provide safeguarding supervision to the deputy Safeguarding Leads at the site.

2 Deputy Safeguarding Lead

- (a) Will be trained to the same standard as the Safeguarding Lead
- (b) Will deputise for the Safeguarding Lead. However, the ultimate lead responsibility, as set out above, remains with the Site Leader.

3 Regional Safeguarding Lead

- (a) Support a number of identified sites within the region, this may be divided by geographic region, service type or workload.
- (b) Provide or organise safeguarding supervision to the main Safeguarding Leads within their region
- (c) Offer sound procedural advice and support
- (d) To analyse the results of the divisional audits of practice and identify any actions necessary for the region and monitor these to completion, analysis of disincentives to report, sharing of best practice and lessons learnt through regular contact (at least annually) with other regional safeguarding leads.
- (e) Collate and review reports from sites and Regional meetings, reporting upwards to and attending the quarterly Divisional Safeguarding Committee.
- (f) Act, as a member, on behalf of the Divisional Safeguarding Committee, sharing learning and influencing safeguarding practice across the Division.
- (g) Support other Regional Leads by covering during periods of absence (for example annual leave or sickness)

Appendix 1B

ROLE OF THE DESIGNATED SAFEGUARDING LEAD IN SCHOOLS AND COLLEGES

This role should be undertaken by an appropriate **senior member** of staff, from the school or college **leadership team**, is appointed to the role of designated safeguarding lead. The designated safeguarding lead should take **lead responsibility** for safeguarding and child protection (including online safety). This should be explicit in the role holder's job description. This person should have the appropriate status and authority within the school to carry out the duties of the post. They should be given the time, funding, training, resources and support to provide advice and support to other colleagues on child welfare and child protection matters, to take part in strategy discussions and inter-agency meetings, and/or to support other colleagues to do so, and to contribute to the assessment of children.

Deputy designated safeguarding leads - It is a matter for individual schools and colleges as to whether they choose to have one or more deputy designated safeguarding leads. Any deputies should be trained to the same standard as the designated safeguarding lead and the role should be explicit in their job description. Whilst the activities of the designated safeguarding lead can be delegated to appropriately trained deputies, the ultimate **lead responsibility** for child protection, as set out above, remains with the designated safeguarding lead, this **lead responsibility** should not be delegated.

Manage referrals - The designated safeguarding lead is expected to:

- (a) Refer cases of suspected abuse to the local authority children's social care as required
 - (b) Support colleagues who make referrals to local authority children's social care
 - (c) Refer cases to the Channel programme where there is a radicalisation concern as required
 - (d) Support colleagues who make referrals to the Channel programme
 - (e) Refer cases where a person is dismissed or left due to risk/harm to a child to the Disclosure and Barring Service as required
- and
- (f) Refer cases where a crime may have been committed to the Police as required.

Work with others - The designated safeguarding lead is expected to:

- (a) Act as a point of contact with the three safeguarding partners
 - (b) Liaise with the Head Teacher, site lead or School Principal to inform him or her of issues - especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations
 - (c) As required, liaise with the "case manager" (as per Part four of KCSIE) and the designated officer(s) at the local authority for child protection concerns in cases which concern a colleague
 - (d) Liaise with colleagues (especially pastoral support colleagues, school nurses, IT Technicians, and SENCOs or the named person with oversight for SEN in a college and Senior Mental Health Leads) on matters of safety and safeguarding (including online and digital safety) and when deciding whether to make a referral by liaising with relevant agencies
- and
- (e) Act as a source of support, advice and expertise for all colleagues.

Training - The designated safeguarding lead (and any deputies) should undergo training to provide them with the knowledge and skills required to carry out the role. This training should be updated at least every two years. The designated safeguarding lead should undertake PREVENT awareness training.

Training should provide designated safeguarding leads with a good understanding of their own role, and the processes, procedures and responsibilities of other agencies, particularly children's social care, so they:

- (a) Understand the assessment process for providing early help and statutory intervention, including local criteria for action and local authority children's social care referral arrangements. Full details in Chapter one of Working Together to Safeguard Children.
- (b) Have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so

Operational

- (c) Ensure each colleague has access to, and understands, the school's or college's safeguarding policy and procedures, especially new and part time colleagues
- (d) Are alert to the specific needs of children in need, those with special educational needs and young carers; (Section 17(10) Children Act 1989: those unlikely to achieve a reasonable standard of health and development without local authority services, those whose health and development is likely to be significantly impaired without the provision of such services, or disabled children.)
- (e) Understand relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the General Data Protection Regulation
- (f) Understand the importance of information sharing, both within the school and college, and with the three safeguarding partners, other agencies, organisations and practitioners
- (g) Are able to keep detailed, accurate, secure written records of concerns and referrals
- (h) Understand and support the school or college with regards to the requirements of the PREVENT duty and are able to provide advice and support to colleagues on protecting children from the risk of radicalisation
- (i) Are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college
- (j) Can recognise the additional risks that children with SEN and disabilities (SEND) face online, for example, from online bullying, grooming and radicalisation and are confident they have the capability to support SEND children to stay safe online
- (k) Obtain access to resources and attend any relevant or refresher training courses and
- (l) Encourage a culture of listening to children and taking account of their wishes and feelings, among all colleagues, in any measures the school or college may put in place to protect them.

In addition to the formal training set out above, their knowledge and skills should be refreshed (this might be via e-bulletins, meeting other designated safeguarding leads, or simply taking time to read and digest safeguarding developments) at regular intervals, as required, and at least annually, to allow them to understand and keep up with any developments relevant to their role.

Raise Awareness - The designated safeguarding lead should:

- (a) Ensure the school's or college's child protection policies are known, understood and used appropriately;
- (b) Ensure the school's or college's child protection policy is reviewed annually (as a minimum) and the procedures and implementation are updated and reviewed regularly, and work with governing bodies or proprietors regarding this;
- (c) Ensure the child protection policy is available publicly and parents are aware of the fact that referrals about suspected abuse or neglect may be made and the role of the school or college in this; and
- (d) Link with the safeguarding partner arrangements to make sure colleagues are aware of any training opportunities and the latest local policies on local safeguarding arrangements.
- (e) Help promote educational outcomes by sharing the information about the welfare, safeguarding and child protection issues that children, including children with a social worker, are experiencing, or have experienced, with teachers and school and college leadership staff. Their role could include ensuring that the school or college, and their staff, know who these children are, understand their academic progress and attainment and maintain a culture of high aspirations for this cohort; supporting teaching staff to identify the challenges that children in this group might face and the additional academic support and adjustments that they could make to best support these children.

Child protection file - Where children leave the school or college the designated safeguarding lead should ensure their child protection file is transferred to the new school or college as soon as possible. This should be transferred separately from the main pupil file, ensuring secure transit, and confirmation of receipt should be obtained. Receiving schools and colleges should ensure key colleagues such as designated safeguarding leads and SENCOs or the named person with oversight for SEN in colleges, are aware as required.

In addition to the child protection file, the designated safeguarding lead should also consider if it would be appropriate to share any information with the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue supporting victims of abuse and have that support in place for when the child arrives.

Operational

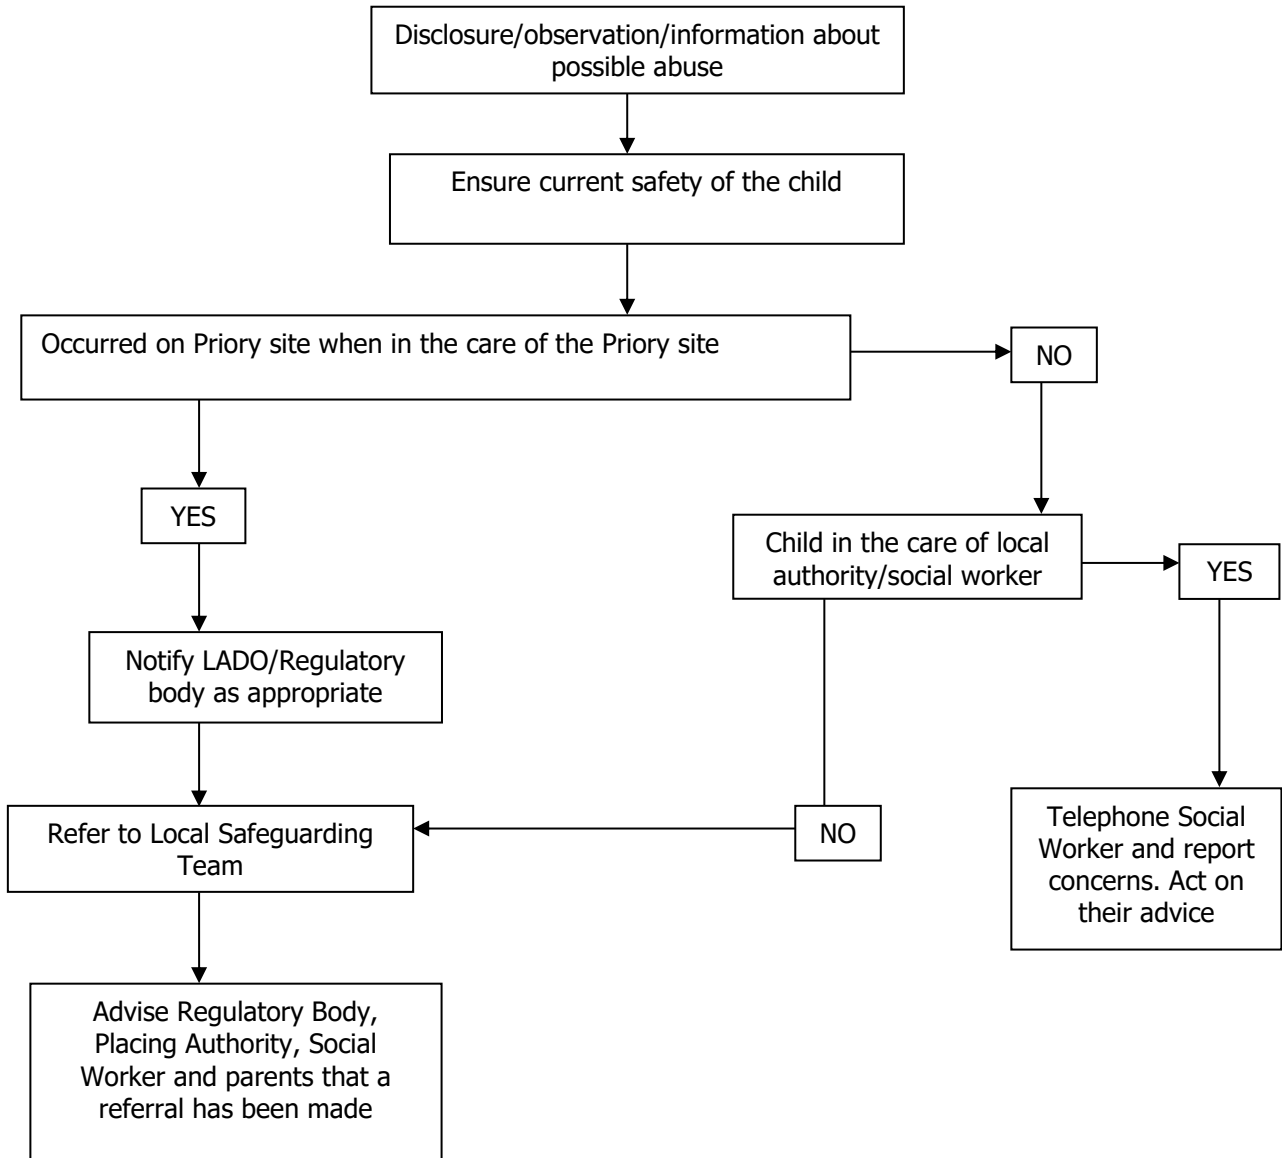

Availability - During term time the designated safeguarding lead (or a deputy) should always be available (during school or college hours) for colleagues in the school or college to discuss any safeguarding concerns. Whilst generally speaking the designated safeguarding lead (or deputy) would be expected to be available in person, it is a matter for individual schools and colleges, working with the designated safeguarding lead, to define what "available" means and whether in exceptional circumstances availability via phone and or Skype or other such media is acceptable.

It is a matter for individual schools and colleges and the designated safeguarding lead to arrange adequate and appropriate cover arrangements for any out of hours/out of term activities.

APPENDIX 2

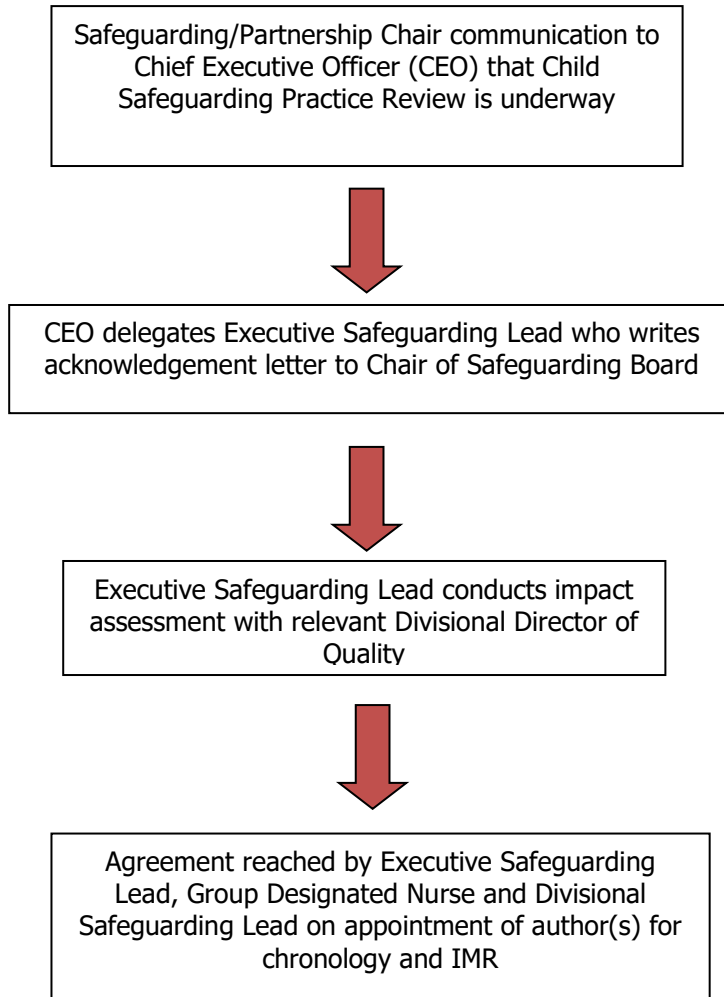

INTERNAL SAFEGUARDING PROCEDURE

The following flowchart details actions that must be taken following suspicion that a child has been abused.

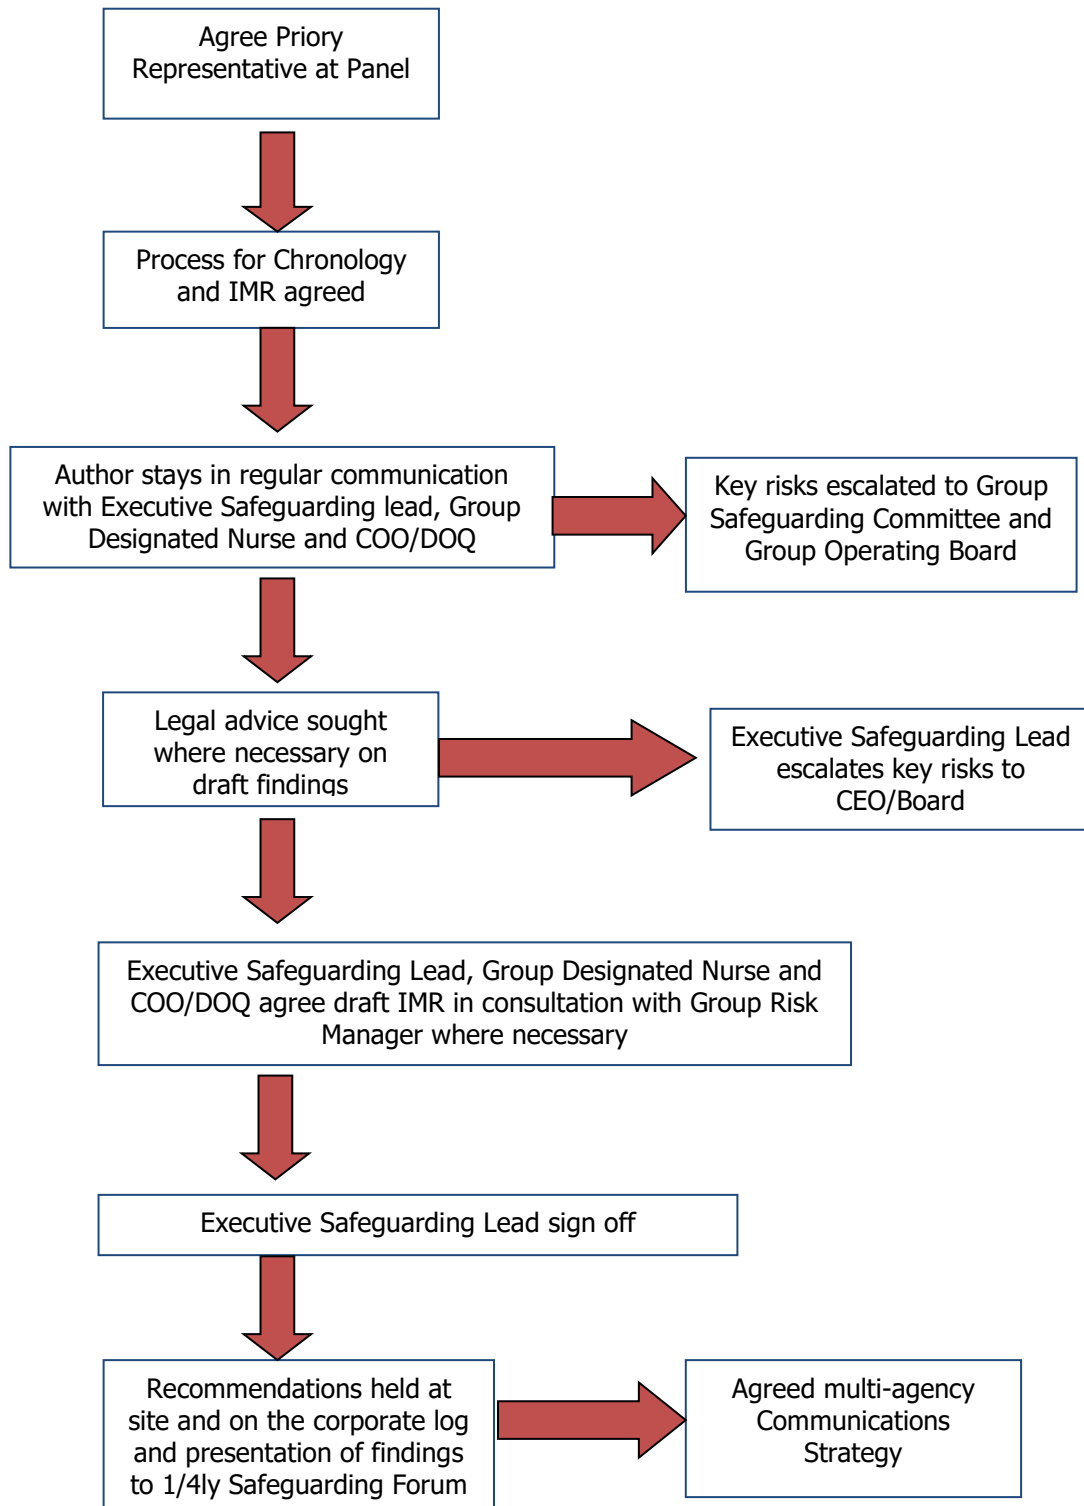

APPENDIX 3

PROCESS FOR APPOINTMENT OF WRITER FOR CHRONOLOGY AND IMR**

APPENDIX 4

Child Safeguarding Practice Reviews (SPRs) - Process for Chronology and IMR

APPENDIX 5

RECOGNISING SIGNS OF CHILD ABUSE

Categories of Abuse:

- (a) Physical Abuse
- (b) Emotional Abuse (including Domestic Abuse)
- (c) Sexual Abuse (including child sexual exploitation)
- (d) Neglect

Signs of Abuse in Children - The following non-specific signs may indicate something is wrong:

- (a) Significant change in behaviour
- (b) Extreme anger or sadness
- (c) Aggressive and attention-seeking behaviour
- (d) Suspicious bruises with unsatisfactory explanations
- (e) Lack of self-esteem
- (f) Self-injury
- (g) Depression
- (h) Age inappropriate sexual behaviour
- (i) Child Sexual Exploitation.

Risk Indicators - The factors described in this section are frequently found in cases of child abuse. Their presence is not proof that abuse has occurred, but:

- (a) Must be regarded as indicators of the possibility of significant harm
- (b) Justifies the need for careful assessment and discussion with designated/named/lead person, manager, (or in the absence of all those individuals, an experienced colleague)
- (c) May require consultation with and/or referral to Children's Services.

The absence of such indicators does not mean that abuse or neglect has not occurred.

In an abusive relationship the child may:

- (a) Appear frightened of the parent/s
- (b) Act in a way that is inappropriate to her/his age and development (though full account needs to be taken of different patterns of development and different ethnic groups).

The parent or carer may:

- (a) Persistently avoid child health promotion services and treatment of the child's episodic illnesses
- (b) Have unrealistic expectations of the child
- (c) Frequently complain about/to the child and may fail to provide attention or praise (high criticism/low warmth environment)
- (d) Be absent or misusing substances
- (e) Persistently refuse to allow access on home visits
- (f) Be involved in domestic abuse.

Colleagues should be aware of the potential risk to children when individuals, previously known or suspected to have abused children, move into the household.

Recognising Physical Abuse - The following are often regarded as indicators of concern:

- (a) An explanation which is inconsistent with an injury
- (b) Several different explanations provided for an injury
- (c) Unexplained delay in seeking treatment
- (d) The parents/carers are uninterested or undisturbed by an accident or injury
- (e) Parents are absent without good reason when their child is presented for treatment
- (f) Repeated presentation of minor injuries (which may represent a 'cry for help' and if ignored could lead to a more serious injury)
- (g) Family use of different doctors and A&E departments
- (h) Reluctance to give information or mention previous injuries.

Bruising - Children can have accidental bruising, but the following must be considered as non-accidental unless there is evidence or an adequate explanation provided:

Operational

- (a) Any bruising to a pre-crawling or pre-walking baby
- (b) Bruising in or around the mouth, particularly in small babies, which may indicate force feeding
- (c) Two simultaneous bruised eyes, without bruising to the forehead, (rarely accidental, though a single bruised eye can be accidental or abusive)
- (d) Repeated or multiple bruising on the head or on sites unlikely to be injured accidentally
- (e) Variation in colour possibly indicating injuries caused at different times
- (f) The outline of an object used e.g. belt marks, hand prints or a hair brush
- (g) Bruising or tears around, or behind, the earlobe/s indicating injury by pulling or twisting
- (h) Bruising around the face
- (i) Grasp marks on small children
- (j) Bruising on the arms, buttocks and thighs may be an indicator of sexual abuse.

Bite Marks - Bite marks can leave clear impressions of the teeth. Human bite marks are oval or crescent shaped. Those over 3 cm in diameter are more likely to have been caused by an adult or older child. A medical opinion should be sought where there is any doubt over the origin of the bite.

Burns and Scalds - It can be difficult to distinguish between accidental and non-accidental burns and scalds, and will always require experienced medical opinion. Any burn with a clear outline may be suspicious e.g.:

- (a) Circular burns from cigarettes (but may be friction burns if along the bony protuberance of the spine)
- (b) Linear burns from hot metal rods or electrical fire elements
- (c) Burns of uniform depth over a large area
- (d) Scalds that have a line indicating immersion or poured liquid (a child getting into hot water is his/her own accord will struggle to get out and cause splash marks)
- (e) Old scars indicating previous burns/scalds which did not have appropriate treatment or adequate explanation.

Scalds to the buttocks of a small child, particularly in the absence of burns to the feet, are indicative of dipping into a hot liquid or bath.

Fractures - Fractures may cause pain, swelling and discolouration over a bone or joint. Non-mobile children rarely sustain fractures. There are grounds for concern if:

- (a) The history provided is vague, non-existent or inconsistent with the fracture type
- (b) There are associated old fractures
- (c) Medical attention is sought after a period of delay when the fracture has caused symptoms such as swelling, pain or loss of movement
- (d) There is an unexplained fracture in the first year of life.

Scars - A large number of scars or scars of different sizes or ages, or on different parts of the body, may suggest abuse.

Recognising Emotional Abuse - Emotional abuse may be difficult to recognise, as the signs are usually behavioural rather than physical. The manifestations of emotional abuse might also indicate the presence of other kinds of abuse. The indicators of emotional abuse are often also associated with other forms of abuse. The following may be indicators of emotional abuse:

- (a) Developmental delay
- (b) Abnormal attachment between a child and parent/carer e.g. anxious, indiscriminate or not attachment
- (c) Indiscriminate attachment or failure to attach
- (d) Aggressive behaviour towards others
- (e) Scapegoated within the family
- (f) Frozen watchfulness, particularly in pre-school children
- (g) Low self-esteem and lack of confidence
- (h) Withdrawn or seen as a 'loner' - difficulty relating to others.

Recognising Signs of Sexual Abuse - Boys and girls of all ages may be sexually abused and are frequently scared to say anything due to guilt and/or fear. This is particularly difficult for a child to talk about and full account should be taken of the cultural sensitivities of any individual child/family.

Recognition can be difficult, unless the child discloses and is believed. There may be no physical signs and indications are likely to be emotional/behavioural.

Some behavioural indicators associated with this form of abuse are:

- (a) Inappropriate sexualised conduct
- (b) Sexually explicit behaviour, play or conversation, inappropriate to the child's age
- (c) Continual and inappropriate or excessive masturbation
- (d) Self-harm (including eating disorder), self-mutilation and suicide attempts
- (e) Involvement in prostitution or indiscriminate choice of sexual partners
- (f) An anxious unwillingness to remove clothes e.g. for sports events (but this may be related to cultural norms or physical difficulties).

Some physical indicators associated with this form of abuse are:

- (a) Pain or itching of genital area
- (b) Blood on underclothes
- (c) Pregnancy in a younger girl where the identity of the father is not disclosed
- (d) Physical symptoms such as injuries to the genital or anal area, bruising to buttocks, abdomen and thighs, sexually transmitted disease, presence of semen on vagina, anus, external genitalia or clothing.

Recognising Neglect - Evidence of neglect is built up over a period of time and can cover different aspects of parenting. Indicators include:

- (a) Failure by parents or carers to meet the basic essential needs e.g. adequate food, clothes, warmth, hygiene and medical care
- (b) A child seen to be listless, apathetic and irresponsible with no apparent medical cause - failure of child to grow within normal expected pattern, with accompanying weight loss
- (c) Child thrives away from home environment
- (d) Child frequently absent from school
- (e) Child left with adults who are intoxicated or violent
- (f) Child abandoned or left alone for excessive periods.

APPENDIX 6

SEXUAL ABUSE BY YOUNG PEOPLE

The boundary between what is abusive and what is part of normal childhood or youthful experimentation can be blurred. The determination of whether behaviour is developmental, inappropriate or abusive will hinge around the related concepts of true consent, power imbalance and exploitation. This may include children and young people who exhibit a range of sexually problematic behaviour such as indecent exposure, obscene telephone calls, fetishism, bestiality and sexual abuse against adults, peers or children.

Developmental Sexual Activity encompasses those actions that are to be expected from children and young people as they move from infancy through to an adult understanding of their physical, emotional and behavioural relationships with each other. Such sexual activity is essentially information gathering and experience testing. It is characterised by mutuality and of the seeking of consent.

Inappropriate Sexual Behaviour can be inappropriate socially, in appropriate to development, or both. In considering whether behaviour fits into this category, it is important to consider what negative effects it has on any of the parties involved and what concerns it raises about a child or young person. It should be recognised that some actions may be motivated by information seeking, but still cause significant upset, confusion, worry, physical damage, etc. It may also be that the behaviour is 'acting out' which may derive from other sexual situations to which the child or young person has been exposed. If an act appears to have been inappropriate, there may still be a need for some form of behaviour management or intervention. For some children, educative inputs may be enough to address the behaviour.

Abusive sexual activity included any behaviour involving coercion, threats, aggression together with secrecy, or where one participant relies on an unequal power base. In order to more fully determine the nature of the incident the following factors should be given consideration. The presence of exploitation in terms of:

- (a) **Equality** - consider differentials of physical, cognitive and emotional development, power and control and authority, passive and assertive tendencies
- (b) **Consent** - agreement including all the following:
 - i. Understanding that is proposed based on age, maturity, development level, functioning and experience
 - ii. Knowledge of society's standards for what is being proposed
 - iii. Awareness of potential consequences and alternatives
 - iv. Assumption that agreements or disagreements will be respected equally
 - v. Voluntary decision
 - vi. Mental Competence
- (c) **Coercion** - the young perpetrator who abuses may use techniques like bribing, manipulation and emotional threats of secondary gains and losses that is loss of love, friendship, etc. Some may use physical force, brutality or the threat of these regardless of victim resistance.

In evaluating sexual behaviour of children and young people, the above information should be used only as a guide.

APPENDIX 7

CHILD SEXUAL EXPLOITATION

CSE occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology. CSE can affect any child or young person (male or female) under the age of 18 years, including 16 and 17 year olds who can legally consent to have sex. It can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity and may occur without the child or young person's immediate knowledge (e.g. through others copying videos or images they have created and posted on social media).

The above CCE indicators can also be indicators of CSE, as can:

- children who have older boyfriends or girlfriends; and
- children who suffer from sexually transmitted infections or become pregnant.

The department provide: [Child sexual exploitation: guide for practitioners](#)

Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources.

Some of the following signs may be indicators of child sexual exploitation:

- (a) Children who appear with unexplained gifts or new possessions;
- (b) Children who associate with other young people involved in exploitation;
- (c) Children who have older boyfriends or girlfriends;
- (d) Children who suffer from sexually transmitted infections or become pregnant;
- (e) Children who suffer from changes in emotional well-being;
- (f) Children who misuse drugs and alcohol;
- (g) Children who go missing for periods of time or regularly come home late; and
- (h) Children who regularly miss school or education or do not take part in education.

APPENDIX 8

FEMALE GENITAL MUTILATION (FGM)

It is essential that colleagues are aware of FGM practices and the need to look for signs, symptoms and other indicators of FGM.

What is FGM? - It involves procedures that intentionally alter/injure the female genital organs for non-medical reasons.

Four types of procedure:

- Type 1 Clitoridectomy - partial/total removal of clitoris
- Type 2 Excision - partial/total removal of clitoris and labia minora
- Type 3 Infibulation entrance to vagina is narrowed by repositioning the inner/outer labia
- Type 4 all other procedures that may include: pricking, piercing, incising, cauterising and scraping the genital area

Why is it carried out? - Belief that:

- (a) FGM brings status/respect to the girl - social acceptance for marriage
- (b) Preserves a girl's virginity
- (c) Part of being a woman/rite of passage
- (d) Upholds family honour
- (e) Cleanses and purifies the girl
- (f) Gives a sense of belonging to the community
- (g) Fulfils a religious requirement
- (h) Perpetuates a custom/tradition
- (i) Helps girls be clean/hygienic
- (j) Is cosmetically desirable
- (k) Mistakenly believed to make childbirth easier

Is FGM legal? - FGM is internationally recognised as a violation of human rights of girls and women. It is **illegal** in most countries including the UK.

Circumstances and occurrences that may point to FGM happening are:

- (a) Child talking about getting ready for a special ceremony
- (b) Family taking a long trip abroad
- (c) Child's family being from one of the 'at risk' communities for FGM (Kenya, Somalia, Sudan, Sierra Leon, Egypt, Nigeria, Eritrea as well as non-African communities including Yemeni, Afghani, Kurdistan, Indonesia and Pakistan)
- (d) Knowledge that the child's sibling has undergone FGM
- (e) Child talks about going abroad to be 'cut' or to prepare for marriage

Signs that may indicate a child has undergone FGM:

- (a) Prolonged absence from school and other activities
- (b) Behaviour change on return from a holiday abroad, such as being withdrawn and appearing subdued
- (c) Bladder or menstrual problems
- (d) Finding it difficult to sit still and looking uncomfortable
- (e) Complaining about pain between the legs
- (f) Mentioning something somebody did to them that they are not allowed to talk about
- (g) Secretive behaviour, including isolating themselves from the group
- (h) Reluctance to take part in physical activity
- (i) Repeated urinal tract infection
- (j) Disclosure

The 'One Chance' Rule - As with Forced Marriage there is the 'One Chance' rule. It is essential that settings /schools/colleges take action **without delay** and make a referral to children's services. It is every colleagues legal duty to report FGM. It is every colleague's legal duty to report FGM. It will be rare for teachers to see visual evidence of FGM, and they should not examine pupils or students, but the same definition of what is meant by 'to discover that an act of FGM appears to have been carried out' is used for all professionals to whom the mandatory reporting duty applies.

APPENDIX 9

DOMESTIC ABUSE

The cross-government definition of domestic violence and abuse is:

Any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to:

- (a) Psychological
- (b) Physical
- (c) Sexual
- (d) Financial
- (e) Emotional

Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. Domestic abuse affecting young people can also occur within their personal relationships, as well as in the context of their home life.

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result

Operation Encompass

[Operation Encompass](#) operates in the majority of police forces across England. It helps police and schools work together to provide emotional and practical help to children. The system ensures that when police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the key adult (usually the designated safeguarding lead) in school before the child or children arrive at school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can enable support to be given to the child according to their needs. Police forces not signed up to operation encompass will have their own arrangements in place.

National Domestic Abuse Helpline

Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in confidence, 24 hours a day on 0808 2000 247. Its website provides guidance and support for potential victims, as well as those who are worried about friends and loved ones. It also has a form through which a safe time from the team for a call can be booked.

Additional advice on identifying children who are affected by domestic abuse and how they can be helped is available at:

- [NSPCC- UK domestic-abuse Signs Symptoms Effects](#)
- [Refuge what is domestic violence/effects of domestic violence on children](#)

[SafeLives: young people and domestic abuse.](#)

Advice on identifying children who are affected by domestic abuse and how they can be helped is available at:

- National crime agency - human-trafficking
- NSPCC- UK domestic-abuse Signs Symptoms Effects
- Refuge - what is domestic violence/effects of domestic violence on children
- Safelives - young people and domestic abuse.

APPENDIX 10

INDICATORS OF VULNERABILITY TO RADICALISATION

- (a) Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism leading to terrorism
- (b) Extremism is defined by the Government in the Prevent Strategy as:
- (c) Vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. We also include in our definition of extremism calls for the death of members of our armed forces, whether in this country or overseas
- (d) Extremism is defined by the Crown Prosecution Service as - The demonstration of unacceptable behaviour by using any means or medium to express views which:
 - i. Encourage, justify or glorify terrorist violence in furtherance of particular beliefs
 - ii. Seek to provoke others to terrorist acts
 - iii. Encourage other serious criminal activity or seek to provoke others to serious criminal actsor
 - iv. Foster hatred which might lead to inter-community violence in the UK
- (e) There is no such thing as a 'typical extremist': those who become involved in extremist actions come from a range of backgrounds and experiences, and most individuals, even those who hold radical views, do not become involved in violent extremist activity
- (f) Children and young people may become susceptible to radicalisation through a range of social, personal and environmental factors - it is known that violent extremists exploit vulnerabilities in individuals to drive a wedge between them and their families and communities. It is vital that school colleagues are able to recognise those vulnerabilities
Indicators of vulnerability include:
 - i. Identity Crisis - the student/child/young person is distanced from their cultural/religious heritage and experiences discomfort about their place in society
 - ii. Personal Crisis - the student/child/young person may be experiencing family tensions; a sense of isolation; and low self-esteem; they may have dissociated from their existing friendship group and become involved with a new and different group of friends; they may be searching for answers to questions about identity, faith and belonging
 - iii. Personal Circumstances - migration; local community tensions; and events affecting the student/child/young person's country or region of origin may contribute to a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy
 - iv. Unmet Aspirations - the student/child/young person may have perceptions of injustice; a feeling of failure; rejection of civic life
 - v. Experiences of Criminality - which may include involvement with criminal groups, imprisonment, and poor resettlement/reintegration
 - vi. Special Educational Need - students/children and young people may experience difficulties with social interaction, empathy with others, understanding the consequences of their actions and awareness of the motivations of others

However, this list is not exhaustive, nor does it mean that all young people experiencing the above are at risk of radicalisation for the purposes of violent extremism.

More critical risk factors could include:

- (a) Being in contact with extremist recruiters
- (b) Accessing violent extremist websites, especially those with a social networking element
- (c) Possessing or accessing violent extremist literature
- (d) Using extremist narratives and a global ideology to explain personal disadvantage
- (e) Justifying the use of violence to solve societal issues
- (f) Joining or seeking to join extremist organisations
- (g) Significant changes to appearance and/or behaviour
- (h) Experiencing a high level of social isolation resulting in issues of identity crisis and/or personal crisis.

The Department of Education guidance [The Prevent Duty](#) can be accessed via this link.

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk should be a part of a schools' or colleges' safeguarding approach.

- **Extremism**¹ is the vocal or active opposition to our fundamental values, including democracy, the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.
- **Radicalisation**² refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.
- **Terrorism**³ is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat **must** be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods (such as social media or the internet) and settings (such as within the home).

However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a Prevent referral.

The school's or college's designated safeguarding lead (and any deputies) should be aware of local procedures for making a Prevent referral.

¹ As defined in the Government's Counter Extremism Strategy, <https://www.gov.uk/government/publications/counter-extremism-strategy>.

² As defined in the Revised Prevent Duty Guidance for England and Wales, <https://www.gov.uk/government/publications/prevent-duty-guidance/revised-prevent-duty-guidance-forengland-and-wales>.

³ As defined in the Terrorism Act 2000 (TACT 2000), <http://www.legislation.gov.uk/ukpga/2000/11/contents>

The Prevent duty

All schools and colleges are subject to a duty under section 26 of the Counter Terrorism and Security Act 2015 (the CTSA 2015), in the exercise of their functions, to have “due regard⁴ to the need to prevent people from being drawn into terrorism”.⁵ This duty is known as the Prevent duty.

The Prevent duty should be seen as part of schools’ and colleges’ wider safeguarding obligations. Designated safeguarding leads and other senior leaders should familiarise themselves with the revised [Prevent duty guidance: for England and Wales](#), especially paragraphs 57-76, which are specifically concerned with schools (and also covers childcare). The guidance is set out in terms of four general themes: risk assessment, working in partnership, staff training, and IT policies.

There is additional guidance: [Prevent duty guidance: for further education institutions](#) in England and Wales that applies to colleges.

Channel

Channel is a voluntary, confidential support programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn

into terrorism. Prevent referrals may be passed to a multi-agency Channel panel, which will discuss the individual referred to determine whether they are vulnerable to being drawn into terrorism and consider the appropriate support required. A representative from the school or college may be asked to attend the Channel panel to help with this assessment. An individual’s engagement with the programme is entirely voluntary at all stages.

Guidance on Channel is available at: [Channel guidance](#).

Additional support

The department has published further advice for schools on the [Prevent duty](#). The advice is intended to complement the Prevent guidance and signposts to other sources of advice and support.

The Home Office has developed three e-learning modules:

- [Prevent awareness e-learning](#) offers an introduction to the Prevent duty.
- [Prevent referrals e-learning](#) supports staff to make Prevent referrals that are **robust, informed** and with **good intention**.
- [Channel awareness e-learning](#) is aimed at staff who may be asked to contribute to or sit on a multi-agency Channel panel.

[Educate Against Hate](#), is a government website designed to support school teachers and leaders to help them safeguard their students from radicalisation and extremism. The platform provides free information and resources to help school staff identify and address the risks, as well as build resilience to radicalisation.

For advice specific to further education, the Education and Training Foundation (ETF) hosts the [Prevent for FE and Training](#). This hosts a range of free, sector specific resources to support further education settings comply with the Prevent duty. This includes the Prevent Awareness e-learning, which offers an introduction to the duty, and the Prevent Referral e-learning, which is designed to support staff to make robust, informed and proportionate referrals.

The ETF Online Learning environment provides online training modules for practitioners, leaders and managers, support staff and governors/Board members outlining their roles and responsibilities under the duty.

⁴ According to the Prevent duty guidance ‘having due regard’ means that the authorities should place an appropriate amount of weight on the need to prevent people being drawn into terrorism when they consider all the other factors relevant to how they carry out their usual functions.

⁵ “Terrorism” for these purposes has the same meaning as for the Terrorism Act 2000 (section 1(1) to (4) of that Act).

APPENDIX 11

CHILDREN AND THE COURT SYSTEM

Children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. There are two age appropriate guides to support children 5-11-year olds and 12-17 year olds.

The guides explain each step of the process and support and special measures that are available. There are diagrams illustrating the courtroom structure and the use of video links is explained.

Making child arrangements via the family courts following separation can be stressful and entrench conflict in families. This can be stressful for children. The Ministry of Justice has launched an online child arrangements information tool with clear and concise information on the dispute resolution service. This may be useful for some parents and carers.

APPENDIX 12

CHILDREN MISSING FROM EDUCATION

All colleagues should be aware that children going missing, particularly repeatedly, can act as a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect, which may include sexual abuse or exploitation and child criminal exploitation. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation or risk of forced marriage. Early intervention is necessary to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. Colleagues should be aware of their school or college's unauthorised absence and children missing from education procedures.

Schools/Colleges should, where reasonably possible, hold more than one emergency contact for their pupils and students.

APPENDIX 13

CHILDREN WITH FAMILY MEMBERS IN PRISON

Approximately 200,000 children have a parent sent to prison each year. These children are at risk of poor outcomes including poverty, stigma, isolation and poor mental health. NICCO provides information designed to support professionals working with offenders and their children, to help mitigate negative consequences for those children.

APPENDIX 14

CHILD CRIMINAL EXPLOITATION: 'COUNTY LINES'

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (county lines, see page 85 for more information), forced to shoplift or pickpocket, or to threaten other young people.

Some of the following can be indicators of CCE:

- children who appear with unexplained gifts or new possessions;
- children who associate with other young people involved in exploitation;
- children who suffer from changes in emotional well-being;
- children who misuse drugs and alcohol;
- children who go missing for periods of time or regularly come home late; and
- children who regularly miss school or education or do not take part in education.

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas [within the UK], using dedicated mobile phone lines or other form of "deal line".

Exploitation is an integral part of the county lines offending model with children and vulnerable adults exploited to move [and store] drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes. Children are often recruited to move drugs and money between locations and are known to be exposed to techniques such as 'plugging', where drugs are concealed internally to avoid detection. Children can easily become trapped by this type of exploitation as county lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

One of the ways of identifying potential involvement in county lines are missing episodes (both from home and school), when the victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism⁶ should be considered. If a child is suspected to be at risk of or involved in county lines, a safeguarding referral should be considered alongside consideration of availability of local services/third sector providers who offer support to victims of county lines exploitation.

Further information on the signs of a child's involvement in county lines is available in guidance published by the [Home Office](#).

⁶ [National Crime Agency - Modern slavery and human-trafficking](#)

APPENDIX 15

HOMELESSNESS

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The designated safeguarding lead (and any deputies) should be aware of contact details and referral routes in to the Local Housing Authority so they can raise/progress concerns at the earliest opportunity. Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property. Whilst referrals and or discussion with the Local Housing Authority should be progressed as appropriate, and in accordance with local procedures, this does not, and should not, replace a referral into children's social care where a child has been harmed or is at risk of harm.

The Homelessness Reduction Act 2017 places a new legal duty on English councils so that everyone who is homeless or at risk of homelessness will have access to meaningful help including an assessment of their needs and circumstances, the development of a personalised housing plan, and work to help them retain their accommodation or find a new place to live. The following factsheets usefully summarise the new duties: Homeless Reduction Act Factsheets. The new duties shift focus to early intervention and encourage those at risk to seek support as soon as possible, before they are facing a homelessness crisis.

In most cases school and college colleagues will be considering homelessness in the context of children who live with their families, and intervention will be on that basis. However, it should also be recognised in some cases 16 and 17 year olds could be living independently from their parents or guardians, for example through their exclusion from the family home, and will require a different level of intervention and support. Children's services will be the lead agency for these young people and the designated safeguarding lead (or a deputy) should ensure appropriate referrals are made based on the child's circumstances. The department and the Ministry of Housing, Communities and Local Government have published joint statutory guidance on the provision of accommodation for 16 and 17 year olds who may be homeless and/ or require accommodation: here.

APPENDIX 16

SO-CALLED 'HONOUR-BASED' VIOLENCE

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBA are abuse (regardless of the motivation) and should be handled and escalated as such. Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBA, or already having suffered HBA.

Actions

If staff have a concern regarding a child that might be at risk of HBA or who has suffered from HBA, they should speak to the designated safeguarding lead (or deputy). As appropriate, they will activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and children's social care. Where FGM has taken place, since 31 October 2015 there has been a mandatory reporting duty placed on **teachers**⁷ that requires a different approach.

⁷ Under Section 5B(11)(a) of the Female Genital Mutilation Act 2003, "teacher" means, in relation to England, a person within section 141A(1) of the Education Act 2002 (persons employed or engaged to carry out teaching work at schools and other institutions in England).

APPENDIX 17

PEER ON PEER ABUSE

Children can abuse other children. This is generally referred to as peer on peer abuse and can take many forms. This can include (but is not limited to) bullying (including cyberbullying); sexual violence and sexual harassment; physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm; sexting and initiating/hazing type violence and rituals.

Pupils should be just as clear about what is expected of them online as offline.

APPENDIX 18

SEXUAL VIOLENCE AND SEXUAL HARASSMENT BETWEEN CHILDREN IN SCHOOLS AND COLLEGES

Context - Sexual violence and sexual harassment can occur between two children of any age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and offline (both physical and verbal) and are never acceptable. It is important that all victims are taken seriously and offered appropriate support. Colleagues should be aware that some groups are potentially more at risk. Evidence shows girls, children with SEND and LGBT children are at greater risk.

Colleagues should be aware of the importance of:

- (a) Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up
- (b) Not tolerating or dismissing sexual violence or sexual harassment as 'banter', 'part of growing up', 'just having a laugh' or 'boys being boys'

and

- (c) Challenging behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them.

What is Sexual violence and Sexual Harassment?

Sexual violence -It is important that school and college colleagues are aware of sexual violence and the fact children can, and sometimes do, abuse their peers in this way. When referring to sexual violence we are referring to sexual offences under the Sexual Offences Act 2003 as described below:

- (a) **Rape:** A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.
- (b) **Assault by Penetration:** A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.
- (c) **Sexual Assault:** A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

What is consent? - Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.

Sexual harassment - When referring to sexual harassment we mean 'unwanted conduct of a sexual nature' that can occur online and offline. When we reference sexual harassment, we do so in the context of child on child sexual harassment. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- (a) Sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names;
- (b) Sexual 'jokes' or taunting;
- (c) physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence - it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and
- (d) Online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence.

It may include:

- (e) non-consensual sharing of sexual images and videos;
- (f) Sexualised online bullying;
- (g) Unwanted sexual comments and messages, including, on social media; and
- (h) Sexual exploitation; coercion and threats

The response to a report of sexual violence or sexual harassment - The initial response to a report from a child is important. It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

If colleagues have a concern about a child or a child makes a report to them, they should follow the referral process as set out in this policy. As is always the case, if colleagues are in any doubt as to what to do they should speak to the designated safeguarding lead (or a deputy).

APPENDIX 19

FORCED MARRIAGE

Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some communities use religion and culture as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

The Forced Marriage Unit has published statutory guidance and Multi-agency guidelines, with pages 35-36 of which focus on the role of schools and colleges. School and college colleagues can contact the Forced Marriage Unit if they need advice or information: Contact: 020 7008 0151 or email fm@fco.gov.uk.

APPENDIX 20

YOUTH PRODUCED SEXUAL IMAGERY (SEXTING)

The practice of children and young people sharing images and videos via text message, email, social media or mobile messaging apps has become commonplace. However, this online technology has also given children the opportunity to produce and distribute sexual imagery in the form of photos and videos. Such imagery involving anyone under the age of 18 is illegal. We include explicit text communication in our processes below.

Youth produced sexual imagery refers to both images and videos where:

- (a) A person under the age of 18 creates and shares sexual imagery of themselves with a peer under the age of 18
- (b) A person under the age of 18 shares sexual imagery created by another person under the age of 18 with a peer under the age of 18 or an adult
- (c) A person under the age of 18 is in possession of sexual imagery created by another person under the age of 18.

All incidents of this nature should be treated as a safeguarding concern and in line with the UKCCIS guidance 'Sexting in schools and colleges: responding to incidents and safeguarding young people'.

Cases where sexual imagery of people under 18 has been shared by adults and where sexual imagery of a person of any age has been shared by an adult to a child is child sexual abuse and should be responded to accordingly.

If a colleague becomes aware of an incident involving youth produced sexual imagery they should follow the child protection procedures and refer to the DSL as soon as possible. The colleague should confiscate the device involved and set it to flight mode or, if this is not possible, turn it off. Colleagues should not view, copy or print the youth produced sexual imagery.

The DSL should hold an initial review meeting with appropriate colleagues and subsequent interviews with the children involved (if appropriate). Parents should be informed at an early stage and involved in the process unless there is reason to believe that involving parents would put the child at risk of harm. At any point in the process if there is concern a young person has been harmed or is at risk of harm a referral should be made to Children's Social Care or the Police as appropriate.

Referral should be made to Children's Social Care/Police, and must always be made if:

- (a) The incident involves an adult
- (b) There is good reason to believe that a young person has been coerced, blackmailed or groomed or if there are concerns about their capacity to consent (for example, owing to special education needs)
- (c) What you know about the imagery suggests the content depicts sexual acts which are unusual for the child's development stage or are violent
- (d) The imagery involves sexual acts
- (e) The imagery involves anyone aged 12 or under
- (f) There is reason to believe a child is at immediate risk of harm owing to the sharing of the imagery, for example the child is presenting as suicidal or self-harming.

The DSL will record all incidents of youth produced sexual imagery, including both the actions taken, actions not taken, reasons for doing so and the resolution in line with safeguarding recording procedures.

APPENDIX 21

UPSKIRTING

Keeping Children Safe in Education (2020) states 'Upskirting' typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is now a criminal offence and may constitute sexual harassment.

Anyone, and any gender, can be a victim and this behaviour is completely unacceptable. Upskirting is distressing and a humiliating violation of privacy for victims.

The Voyeurism (Offences) Act, which is commonly known as the Upskirting Act, came into force on 12 April 2019. 'Upskirting' is where someone takes a picture under a person's clothing (not necessarily a skirt) without their permission and or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is a criminal offence. Anyone of any gender, can be a victim.

Perpetrators will face two years in prison. By criminalising this distressing practice, it is hoped that it deters people from committing the crime.

Upskirting, where committed to obtain sexual gratification, can result in the most serious offenders being placed on the sex offenders register.
